Mass customization (MC) has emerged in the last decade as the premier strategy for companies in all branches of industry to profit from heterogeneity of demand and a broad scope of other customer demands. The research and practical experience collected in this book presents the latest thinking on how to make mass customization work. More than 50 authors from academia and management debate on what is viable now, what did not work in the past, and what lurks just below the radar in mass customization,

personalization, and related fields. Edited by two leading authorities in the field of mass customization, both volumes of the book discuss, among many other themes, the latest research and insights on customization strategies, product design for mass customization, virtual models, co-design toolkits, customization value measurement, open source architecture, customization communities, and MC supply chains. Through a number of detailed case studies, prominent examples of mass customization are explained and evaluated in larger context and perspective.

**How to Win Your Investors' Confidence**  
McGraw-Hill/Irwin Experience, Leadership, Innovation. This edition of Marketing continues a tradition of leading the market with contemporary, cutting-edge content presented in a conversational student-oriented style, supported by the most comprehensive, innovative, and useful supplement package available. This author team is committed to (1) building on past experiences as authors,

(2) continuing their leadership role in bringing new topics and perspectives to the classroom, and (3) focusing on pedagogical innovation that truly responds to new teaching and learning styles. This text and package is designed to meet the needs of a wide spectrum of faculty—from the professor who just wants a good textbook and a few key supplements, to the professor who wants a top-notch fully integrated multimedia program. Marketing utilizes a unique, innovative, and effective pedagogical approach developed by the authors through the integration of their combined classroom, college, and university experiences. The elements of this approach have been the foundation for each edition of Marketing and serve as the core of the text and its supplements as they evolve and adapt to changes in student learning styles, the growth of the marketing discipline, and the development of new instructional technologies. **Marketing** Springer Science & Business Media Marketing as a practice is facing unprecedented challenges: a changing

media landscape, an increasingly complex customer journey, innovative technologies, start-ups which disrupt traditional channels and a new generation of tech-savvy clients. How should students and practitioners adapt to this shifting landscape and address the skills gap that many of today's marketers face? Advanced Marketing Management prepares students for this new world of marketing. Since traditional marketing approaches fail to provide convincing solutions to modern business realities, a new approach is urgently needed if marketers are to regain trust within their organizations. Using contemporary examples, business case studies and supporting pedagogy, Advanced Marketing Management will provide a critical exploration into the more advanced aspects of marketing management, including the gap that exists between formal marketing literature and real-world practice, discussion of multidisciplinary tools, and the crucial evolution of the '4Ps'. Summarizing a large body of literature and academic research on new developments, this book is the go-to guide for

students, lecturers and practitioners, wanting to succeed as modern marketers. Online resources include lecture slides and further questions for group discussion.

Thomson South-Western *Principles of Management* is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the *Principles of Management* course covers many management areas such as human resource management and strategic management, as well behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.
