Haynes

Publishing
A faithful
reproduction
of the 1970
Floyd Clymer
publication of
the official
Honda Factory
Workshop
Manual
specific to the
1962-1969

n10 50cc
Sport Cub
series of
motorcycles.
This manual
includes all of
the data that
you would
expect from a
factory
publication for
the repair and

overhaul of all major and minor mechanical and electrical components. It also includes a comprehensive troubleshooting section plus tables of technical data, tolerances and fits making it an invaluable resource for collectors and restorers of these classic Honda motorcycles. There are 55 illustrations and each procedure is explained in a step-by-step method using an appropriate illustration.

The translation from Japanese to English is, at times, a little quirky but the illustrations make up for any difficulty in understanding what needs to be done! There are separate sections that deal with the repair and overhaul procedures for the engine, transmission, wheels and brakes, front forks, frame and carburetor, plus a detailed electrical service section. This is

a - must have - reference for any Honda enthusiast and would certainly assist in helping any potential purchaser better understand the inner workings prior to purchasing one of these classic motorcycles. Out-of-print and unavailable for many years, this book is highly sought after on the secondary market and we are pleased to be able to offer this

reproduction as a service to all Honda enthusiasts worldwide.

Chilton's Honda Civic & CR-V, 2001-10 Repair Manual
