A Complete Guide to The Dark Web Phaidon Press

This book discusses carefully selected topics in Islamic banking and finance (IBF) in South Eastern Europe (SEE) as one of the fastest growing areas in global finance. IBF originated within various Islamic banks, Islamic windows, investment funds, Takaful companies, and other financial institutions and has resulted in various global products. Although it is still in an early phase in SEE, IBF has developed rapidly in the last decade and has created a need for research on related topics, from the fundamental principles of IBF to the SCR, endowments and investment instruments to Islamic banking practices. This is our second book published as a result of the Sarajevo Islamic and Finance conferences (SIFEC). This conference traditionally gathers Islamic banking, economics, and finance academicians, experts, and students all over the world who discuss a wide range of topics in this field, focusing on the SEE. Consisting of seven chapters presenting original research, this book is a valuable resource for researchers as well as for practitioners and potential investors in IBF, especially in SEE.

The shocking murder that exposed a devoted husband as a cold-hearted killer To Love, Honor-And Murder... Inside a beautiful house in Philadelphia's ritzy Main Line section lay the body of a young mother --dead of an apparent drowning in her bathtub. With no sign of a break-in, no history of marital problems, and the naïve belief that these things sometimes just happen, Stefanie Rabinowitz's family prepared to bury the 29-year-old wife and mother. But at the eleventh hour, because Stefanie was so young, and because there were no witnesses to her death, an autopsy was ordered. And what it revealed was unthinkable: Stefanie had been murdered-strangled in her home, then dragged into the tub to stage a fake drowning. Even more shocking was the suspected killer-Stefanie's 34-year-old husband, Craig: devoted family man, loyal husband, and "everybody's best friend." When the astounding truth began to emerge, so did the tawdry double life of Craig Rabinowitz, a man so obsessed with a two-thousand-dollar-a-week exotic dancer, that his habit caused him to look to the insurance money he would get from murdering his wife. Now, with exclusive interviews and startling inside details, bestselling author Ken Engle blows wide open the shocking true account of a storybook marriage that ended in bone-chilling murder.

Darkest Web Foucher

NEW YORK TIMES BESTSELLER. The unbelievable true story of the man who built a billion-dollar online drug empire from his bedroom—and almost got away with it In 2011, a twenty-six-year-old libertarian programmer named Ross Ulbricht launched the ultimate free market: the Silk Road, a clandestine Web site hosted on the Dark Web where anyone could trade anything—drugs, hacking

software, forged passports, counterfeit cash, poisons—free of the government's watchful eye. It wasn't long before the media got wind of the new Web site where anyone—not just teenagers and weed dealers but terrorists and black hat hackers—could buy and sell contraband detection-free. Spurred by a public outcry, the federal government launched an epic two-year manhunt for the site's elusive proprietor, with no leads, no witnesses, and no clear jurisdiction. All the investigators knew was that whoever was running the site called himself the Dread Pirate Roberts. The Silk Road quickly ballooned into \$1.2 billion enterprise, and Ross embraced his new role as kingpin. He enlisted a loyal crew of allies in high and low places, all as addicted to the danger and thrill of running an illegal marketplace as their customers were to the heroin they sold. Through his network he got wind of the target on his back and took drastic steps to protect himself—including ordering a hit on a former employee. As Ross made plans to disappear forever, the Feds raced against the clock to catch a man they weren't sure even existed, searching for a needle in the haystack of the global Internet. Drawing on exclusive access to key players and two billion digital words and images Ross left behind, Vanity Fair correspondent and New York Times bestselling author Nick Bilton offers a tale filled with twists and turns, lucky breaks and unbelievable close calls. It's a story of the boy next door's ambition gone criminal, spurred on by the clash between the new world of libertarian-leaning, anonymous, decentralized Web advocates and the old world of government control, order, and the rule of law. Filled with unforgettable characters and capped by an astonishing climax, *American Kingpin* might be dismissed as too outrageous for fiction. But it's all too real.

The Shocking True Story of a Teenager Who Would Do Anything for the Older Man She Loved—Even Kill Her Whole Family Foucher

The explosive, first-ever insider's account of a case that continues to fascinate the public—the shocking wrongful conviction of Russell Faria for his wife's murder—a gripping read told by New York Times bestselling true crime expert Charles Bosworth Jr. and Joel J. Schwartz, the defense attorney who battled for justice, and ultimately prevailed. On December 27th, 2011, Russell Faria returned to his Troy, Missouri, home after his weekly game night with friends to an unthinkable, grisly scene: His wife, Betsy, lay dead, a knife still lodged in her neck. She'd been stabbed fifty-five times. First responders concluded that Betsy was dead for hours when Russ discovered her. No blood was found implicating Russ, and surveillance video, receipts, and friends' testimony all supported his alibi. Yet incredibly, police and the prosecuting attorney ignored the evidence. In their minds, Russ was guilty. But prominent defense attorney Joel J. Schwartz quickly recognized the real killer. The motive was clear. Days before her murder, the terminally ill Betsy replaced her husband with her friend, Pamela Hupp, as her life insurance beneficiary. Still, despite the prosecution's flimsy case and Hupp's transparent lies, Russ was convicted—leaving Hupp free to kill again. Bone Deep takes readers through the perfect storm of miscalculations and missteps that led to an innocent man's conviction—and recounts Schwartz's successful battle to have that conviction overturned. Written with Russ Faria's cooperation, and filled with chilling new revelations and previously undisclosed evidence, this is the story of what can happen when police, prosecutor, judge, and jury all fail in their duty to protect the innocent—and let a killer get away with murder.
