I'm Doing CHLOE Things Journal Rising Moon Books for Young Readers

#1 International Best Seller Living a meaningful, satisfying life is an enigma for most people today. We feel stuck, small, without the self-confidence to move in the direction of what we really want. Or, if we do muscle through our fear in pursuit of our dreams, we exhaust ourselves working and striving and achieving and yet somehow, no matter our level of outer-world success, are left dazed and disheartened, asking ourselves, "Is this all there is?" After ten years on Broadway, Sandra Joseph—the longest-running leading lady in Broadway's longest-running show, *The Phantom of the Opera*—knows one thing for sure: the only way to have a truly fulfilling life and achieve success that satisfies is to recognize that the journey up is no substitute for the journey in. In *Unmasking What Matters*, Joseph uses lessons learned on the road to Broadway, during her decade as Christine, and through the challenges she faced after walking away from the business to show readers how to courageously bring their inner voice to the outer world, stop seeking success for achievement's sake and start creating the life they truly desire. With her hard-won wisdom, poignant personal stories, and practical, experiential exercises to guide them, readers will learn to shed their limiting masks, mindfully work through their fears, stand in their authentic power, and build a life rich with satisfaction, meaning, and significance. Warm, humble, encouraging, and inspiring, *Unmasking What Matters* can help anyone move from stuck, fearful, and playing it safe to embracing their passions, gifts, and opportunities and living life "full-out" today.

Not just another fantasy, but a tale combined with historical fact that will leave you wondering... Unlike other tales of fantasy, *Enchanted Realms* ties historical facts with fiction in an effort to suggest to readers that this tale of magic and mysticism could be true. The story weaves the tale of two men rewarded for their bravery after the Battle of Hastings. They are given land close to the Princedoms of Wales and, on their journey to their new lands, the men encounter a stranger who prophesised the births of each man's child. He tells them that these children will be instructed in the secrets of magic and the ancient mysteries. Over the years all his foretelling comes to pass. He gave his name for the first time. "I am known as Whitnecromancer the Great. Remember this night and all the things I have told you for never again shall we meet." Inspired by authors such as Teilhard de Chardin, J. R. R. Tolkien, and J. K. Rowling, *Enchanted Realms* is a historical novel woven with visionary fantasy to create a unique read.

The demise of state Socialisms caused radical social, cultural and economic changes in Eastern Europe. Since then, young people have been confronted with fundamental disruptions and transformations to their daily environment, while an unsettling, globalized world substantially reshapes local belongings and conventional values. In times of multiple instabilities and uncertainties, this volume argues, young people prefer to try to adjust to given circumstances than to adopt the behaviour of potential rebellious, adolescent role models, dissident counter-cultures or artistic breakings of taboo. *Eastern European Youth Cultures in a Global Context* takes this situation as a starting point for an examination of generational change, cultural belongings, political activism and everyday practices of young people in different Eastern European countries from an interdisciplinary perspective. It argues that the conditions of global change not only call for a differentiated evaluation of youth cultures, but also for a revision of our understanding of 'youth' itself - in Eastern Europe and beyond.

Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival.

Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.
