Animals and Ethics 101 helps readers identify and evaluate the arguments for and against various uses of animals, such: - Is it morally wrong to experiment on animals? Why or why not? - Is it morally permissible to eat meat? Why or why not? - Are we morally obligated to provide pets with veterinary care (and, if so, how much?)? Why or why not? And other challenging issues and questions.

Developed as a companion volume to an online "Animals & Ethics" course, it is ideal for classroom use, discussion groups or self study. The book presupposes no conclusions on these controversial moral questions about the treatment of animals, and argues for none either. Its goal is to help the reader better engage the issues and arguments on all sides with greater clarity, understanding and argumentative rigor. Includes a bonus chapter, "Abortion and Animal Rights: Does Either Topic Lead to the Other?"

"On the basis of a superficial inspection, Traditions & Encounters might look similar to several other textbooks that survey the world's past. Like other books, for example, Traditions & Encounters examines the historical development of societies in Asia, Europe, Africa, the Americas, and Oceania. Yet Traditions & Encounters differs from other works in two particularly important ways. First, it relies on a pair of prominent themes to bring a global perspective to the study of world history: it traces the historical development of individual societies in all world regions, and it also focuses attention systematically on interactions between peoples of different societies. Second, it organizes the human past into seven eras that represent distinct and coherent periods of global historical

development"--Preface (Page xvi).
