Contemporary Accounting: A Strategic Approach for Users 10e
Cengage Learning
Now in its tenth edition,

Contemporary Accounting: A Strategic Approach for Users is designed for one-semester introductory accounting courses at undergraduate or MBA level, for both accounting and non-accounting majors. The text has been updated throughout to strengthen the content for first-year students, and to integrate financial and management accounting. Associate Dean Phil Hancock (UWA) and Assistant Professor Peter Robinson (UWA) have worked together to add three new, online-only (MindTap) financial accounting chapters that bridge the gap between assumed and actual knowledge, and have redesigned the pedagogical features to make the text friendlier to first-year learners. It has also been appropriately updated for currency, including an extract from the Annual Report of Woolworths Limited for the year ending 30 June 2018 as an appendix. Premium online teaching and learning tools are available on the MindTap platform. Learn more about the online tools cengage.com.au/mindtap

Engineering Transition: Building a Sustainable Future examines new strategies emerging in response to the mega-issues of global climate change, decline in world oil supply, scarcity of key industrial minerals, and local environmental constraints. These issues pose challenges for organizations, businesses, and communities, and engineers will need to begin developing ideas and projects to implement the transition of engineered systems. This work presents a methodology for shifting away from unsustainable activities. Teaching the Transition Engineering approach and methodology is the focus of the text, and the concept is presented in a way that engineers can begin applying it in their work.
