This book discusses the main quality management (QM) programs and their possible integration into systematic industrial maintenance (SIM). Unlike traditional engineering maintenance books, it not only explains the theory but also provides practical examples of the integration of QM and SIM programs. It also includes reference sources, making it useful for readers wanting to explore specific areas in more depth. Chapter 1 introduces various aspects of the main quality management (QM) programs, including total quality management (TQM), just-in-time (JIT) and lean manufacturing (Lean). Subsequently, it examines the relation of quality and maintenance. Chapter 2 reviews the concepts of systematic industrial

maintenance (SIM) and the application of quality control (QC) tools. Chapter 3 offers an overview, historical perspective and trends in industrial maintenance techniques. Chapters 4, 5, 6, 7, 8 and 9 focus on topics related to schedule-based maintenance, condition-based maintenance, reliability-based maintenance, computerized-based maintenance, risk-based maintenance and total productive maintenance. Covering the theory of each of these types of SIM, the chapters also explain their real-world application in QM and highlight their merits and weaknesses in the context of supporting QM.

What is our intention with the book? Imparting knowledge and experience in step with actual practice and future trends to everybody concerned with housekeeping and managing procedures for housekeeping. Reading the book you will find answers to these questions: What is the farsighted housekeepers

knowledge on guests expectations and trends? How to optimize the housekeeping department with regard to permanent cost pressure? When is a room considered clean and tidy? How to handle the building equipment and appliances and how to set up an adequate maintenance plan? How to organize efficient and environmental operations for the hotel laundry? How can an ABC or Ishikawa failure analysis help to improve quality? What to do to operate the hotel environmentally? With the information of the book, I wish to sensitize professionals and managers from tourism, hotel CEOs, executive officers and managers, supervisors, room division managers, trainees, students and career changers for ambitious housekeeping.
