A historical and interpretive study of three aspects of Western esotericism from the Renaissance to the twentieth century.

Indian Videshinis: European Women in India Temple Lodge Publishing

This is the first bibliography of Postmodernism to take account of work published in all subject areas and in all languages. Deborah Madsen has identified a new first occurrence of the term in 1926, preceding by more than twenty years the first occurrence documented by the Oxford English Dictionary. In a chronological listing, books, articles, notes, letters and working papers on Postmodernism are described with full bibliographical details. Reviews of major books are documented and full contents listings

are given for special issues of journals devoted to Postmodernism. An appendix includes books on Postmodernism announced for publication in 1995. This bibliography brings together in one place all secondary material published on Postmodernism. All disciplines are included, from anthropology to zoology: architecture, cultural studies, dance, drama, feminism, fiction, geography, history, legal studies, literary theory, mathematics, medicine, music, pedagogical theory, philosophy, photography and film, poetry, politics, religion, sociology, the visual and plastic arts, and others. The bibliography also documents items in a range of languages other than English: Chinese, French, German, Italian, Japanese, Russian, Slovenian, Spanish, and the

Scandinavian languages. Access to the information contained in the bibliography is made easy with a comprehensive index providing guidance according to author, subject, language, and key words. Postmodernism: A Bibliography, 1926-1994 is an essential reference text for anyone working in the area of contemporary culture studies.

The active principle is attracted by the passive and the Great Nag, the serpent emblem of the eternity, attracts its tail to its mouth forming thereby a circle in that incessant pursuit of the negative by the positive. The two opposing forces, unconscious and non-existing when separated, they become consciousness and life when brought together. On the post-mortem disintegration of the

constituent parts of man and their return their respective source. It is not part of the evolutionary law that the human mind, our fifth principle, should be fully developed before the Fifth Round. The Seeress of Prévorst is an example of a Fifth Rounder; Count St. Germain, of a Sixth Rounder. Confucius and Plato were Fifth Rounders. While Gautama Buddha and Shankaracharya are also termed Sixth Rounders, allegorically, the former is still higher and greater than all Fifth Rounders. However, precocious minds on this Round are abnormal. Monads are not discrete principles, limited or conditioned, but rays from One Universal and Absolute Principle. The entrance into a dark room through the same aperture of one ray of sunlight following another will not constitute two rays, but one ray

intensified.

The Encyclopedic Sourcebook of New Age Religions Quest Books

"To investigate the unexplained laws of Nature and the powers latent in humanity" is one object of the Theosophical Society. Annie Besant (1847–1933), outspoken feminist, political activist, and early president of the TS, thought that psychic and spiritual development should be available to everyone, not just a chosen few. In her many books and articles providing guidelines, her goal was not to help students develop supernormal powers, but to help them increase consciousness in order to receive instruction from the ascended Masters. Besant believed this work had positively changed her life and wanted others to enjoy the same benefit.

Although penned a century ago, Besant's wisdom on the subject is still germane. Her prose is clear and inspiring, and Kurt Leland's introduction and notes are well-informed. He helpfully divides Besant's writings into four parts — Occultism Light and Dark, Higher Life Training, the Investigation of Different Worlds, and the Science of the Superphysical.

In the late 1980s, the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement, such as channeling and the use of crystals for healing, briefly piqued the public's curiosity. While the movement was at its height,

scholars of religion generally sneered at what was perceived to be a daffy, shallow craze, and ignored it as a subject of serious study. Professor James R. Lewis was among the first to examine this growing religious phenomenon scientifically. In previous books, he has investigated the New Age as the most visible manifestation of a significant spiritual subculture, the roots of which reach back to Theosophy, Spiritualism, and New Thought. The present collection pursues this theme, bringing together some of the best recent scholarship on new religions. Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality. Reflecting the emergence of

this new denominational structure, the core chapters of this book focus on specific groups. Other chapters examine the movement's historical roots. A unique feature of Dr. Lewis's work is his inclusion of extensive selections from New Age literature, thus allowing readers to experience firsthand the unusual perspectives of the various groups. This is a fascinating examination of a significant and persistent religious and social phenomenon. James R. Lewis (Stevens Point, WI), a world-recognized authority on nontraditional religions, teaches religious studies at the University of Wisconsin, and is the author or editor of over 20 books, including *Odd Gods: New Religions and the Cult Controversy* and *Doomsday Prophecies: A Complete Guide to the End*

of the World.

The O.E. Library Critic Bantam

This peer-reviewed study represents a culmination of years of research into the history of the Theosophical Society. In this unique project which combines biographies with source analyses, Jeffrey D. Lavoie records a detailed history of the early Theosophical Society and examines its relationship with the modern Spiritualist movement between the years 1875-1891. Special attention has been paid to some of the neglected figures associated with these organizations including Arthur Lillie- the Gnostic-occultist and early critic of the Theosophical Society; the Davenport Brothers- the Spiritualist mediums who developed many of the standard elements which became associated with

modern Spiritualism; Alfred Wallace- the prominent scientist, Spiritualist, and supposed member of the Theosophical Society and many others. This work will appeal to a wide array of readers including those interested in modern religious movements, Western Esotericism, South Asian history, and Victorian studies.

D.N. Dunlop (1868-1935) combined remarkable practical and organizational abilities in industry and commerce with gifted spiritual and esoteric capacities. A personal friend of W.B. Yeats and Rudolf Steiner, Dunlop was responsible for founding the World Power Conference (today the World Energy Council), and

played leading roles in the Theosophical Society and later the Anthroposophical Society. In his business life he pioneered a cooperative approach towards the emerging global economy. Meyer's compelling narrative of Dunlop's life begins on the Isle of Arran, where the motherless boy is brought up by his grandfather. In a landscape rich with prehistoric standing stones, the young Dunlop has formative spiritual experiences. When his grandfather dies, he struggles for material survival, but devotedly studies occult literature. The scene moves to Dublin, where Dunlop becomes a friend of W.B. Yeats and the poet-seer A.E., and develops an active interest in Madame Blavatsky's Theosophy. Arriving in London via New York, Dunlop is now a lecturer, writer

and the editor of a monthly journal – but alongside his esoteric interests he rises to a foremost position in the British electrical industry, masterminding the first World Power Conference. Dunlop's life is to change forever through his meeting with Rudolf Steiner, which '...brought instant recognition'. He was immediately convinced that Steiner was '...the Knower, the Initiate, the bearer of the Spirit to his age'. Dunlop's close involvement with anthroposophy, leading to his eventual position as Chair of the British Society, is described in detail: from the momentous conferences in Penmaenmawr and Torquay to his transformative relationships with Eleanor Merry, W.J. Stein, Ita Wegman and Ludwig Polzer-Hoditz. Meyer features important material on the

Anthroposophical Society's tragic split, that allows for a true evaluation of this difficult period in the organization's history. This second, enlarged edition features substantial additions of new material and an Afterword by Owen Barfield.

Madame Blavatsky and Her "theosophy"
Philaetheians UK

Historical researcher, Michael Gomes charts the dramatic origins of the theosophical movement, one of the most influential philosophical systems to arise during the last hundred years. In this skillfully woven story of the early years of theosophy, the author re-creates the key events involving Blavatsky, Olcott, and a small group of like-minded occultists. His account covers the publication of Blavatsky's "occult

encyclopedia", *Isis Unveiled*, concluding with the pilgrimage to India by the "theosophical twins."

This volume of conference proceedings investigates the various ways and patterns with which esoteric writings and groups establish their own tradition. This involves concepts of origin and memory, ways of legitimising esoteric tradition as well as techniques and practices of knowledge transmission in esotericism. *Theosophical Manuals: Theosophy : the mother of religions* Quest Books

From its earliest days, America served as an arena for the revolutions in alternative spirituality that eventually swept the globe. Esoteric philosophies and personas—from Freemasonry to

Spiritualism, from Madame H. P. Blavatsky to Edgar Cayce—dramatically altered the nation’s culture, politics, and religion. Yet the mystical roots of our identity are often ignored or overlooked. Opening a new window on the past, *Occult America* presents a dramatic, pioneering study of the esoteric undercurrents of our history and their profound impact across modern life. *Studies in Occultism; A Series of Reprints from the Writings of H. Sonia Gandhi, Princess Niloufer, Princess Durru Shehvar, Simone Tata, Sooni Tata, Saint Teresa The Mother, Margaret Cousins, Sister Nivedita Annie Besant, Jeanne Dupleix. What happened to Sonia Gandhi as she moved from the Italian born wife of the non-political son closer and closer to the centre of power?

Before she became Mother Teresa, how did an Eastern European-born outsider in the Loreto order criticize 'memsahib' nuns and claim that she would renew Christianity in India in 1947? These are just two of the ten stories captured in this book that illuminate the careers and Indian identity formation of European born women and their deep, and sometimes controversial, influence on education, religions, spirituality, commerce and politics in India. For their Indian supporters and opponents, these women were both Indian and videshinis (foreign women); they were also non-British and thus separate from the colonial power. They may have been the last outliers of the intercultural contact around the freedom struggle, but their integration by Indians now holds a

lesson in inclusivity for the country.

A Biography BRILL

Focusing on the early Modern and Victorian periods, the author finds covert revolutionaries in four familiar practitioners of a strategy she calls

creative negativity: poet-photographer Julia Margaret Cameron (1815-1879), novelist-essayist Anne Thackeray Ritchie (1837-1919), activist-spiritual leader Annie Besant (1847-1933), and actress-writer Elizabeth Robins (1862-1952).
