Essays on Plato's Republic

Oxford University Press

This is the first book on Aristotle's important but neglected essay *Peri ideon*, 'On Ideas', to be published in English. Gail Fine explores the philosophical merits of Aristotle's criticisms of Plato, and relates their views to current debates about universals, properties, meaning, and knowledge. The full, annotated text of *Peri ideon* is included, with translation.

The Allegory of the Cave, or Plato's Cave, was

presented by the Greek philosopher Plato in his work *Republic* (514a-520a) to compare "the effect of education (*παιδεία*) and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b-509c) and the analogy of the divided line (509d-511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d-534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.

White privilege damages and distorts societies around the world, not just in the United States. This book exposes its pervasive global reach and creates a new space for discourse on worldwide racial equality. As Chandran Nair shows in this uncompromising new book, a belief in the innate superiority of White people and Western culture, once the driving force behind imperialism, is now woven into the very fabric of globalization. It is so insidious that, as Nair points out, even many

non-White people have internalized it, judging themselves by an alien standard. It has no rival in terms of longevity, global reach, harm done, and continuing subversion of other cultures and societies. Nair takes a comprehensive look at the destructive influence of global White privilege. He examines its impact on geopolitics, the reframing of world history, and international business practices. In the soft-power spheres of White privilege—entertainment, the news media, sports, and fashion—he offers example after example of how White cultural products remain the aspirational standard. Even environmentalism has been corrupted, dominated by a White savior mentality whereby technologies and practices built in the West will save the supposedly underdeveloped, poorly governed, and polluted non-Western world. For all these areas, Nair gives specific suggestions for breaking the power of White privilege. It must be dismantled—not just because it is an injustice but also because we will be creating a post-Western world that has less conflict, is more united, and is better able

to respond to the existential challenges facing all of us. *The Cambridge Companion to Plato's Republic* BookRix This book looks at Rabindranath Tagore's, experiments and journey as an educator and the influence of humanistic worldviews, nationalism and cosmopolitanism in his philosophy of education. It juxtaposes the educational systems and institutions set up by the British colonial administration with Tagore's pedagogical vision and schools in Santiniketan, West Bengal—Brahmacharya Asram (1901), Visva-Bharati University (1921) and Sriniketan Institute of Village Reconstruction (1922). An educational pioneer and a poet-teacher, Tagore combined nature and culture, tradition and modernity, East and West, in formulating his educational methodology. The essays in this volume analyse the relevance of his theories and practice in encouraging greater cultural exchange and the dissolution of the walls between classrooms and communities. This book will be useful for scholars and researchers of education, Tagore studies,

literature, cultural studies, sociology of education, South Asian studies and colonial and postcolonial studies.

A Day in Athens with Socrates The Floating Press

Eryxias by Plato is a spurious Socratic dialogue. It is set in the Stoa of Zeus Eleutherios, and features Socrates in conversation with Critias, Eryxias, and Erasistratus (nephew of Phaeax). The dialogue concerns the topic of wealth and virtue. The position of Eryxias that it is good to be materially prosperous is challenged when Critias argues that having money is not always a good thing. Socrates then shows that money has only a conventional value. *A Critical History of Greek Philosophy* Penguin UK Discover how our big social, political and ethical ideas are formed with The Philosophy Book. Some Thoughts Concerning Education

Penguin
Virtually every aspect of the modern Western worldview has its roots in the remarkably diverse body of philosophy that emerged from a small patch of land in the Mediterranean thousands of years ago. This volume offers an overview of the highlights of ancient Greek philosophy, as well as an historical account of the lives of many of the scholars and thinkers who helped shaped it.

Farrar, Straus and Giroux
The Republic is a Socratic dialogue, written by Plato around 380 BCE, concerning the definition of justice, the order and character of the just city-state and the just man. The dramatic date of the dialogue has been much debated and though it must take place some time during the Peloponnesian War, "there would be jarring anachronisms if any of the candidate specific dates between 432 and 404 were assigned". It is Plato's best-known work and has proven to be one of the most intellectually and historically influential works of philosophy and political theory. In it, Socrates along with various Athenians and foreigners discuss the

meaning of justice and examine whether or not the just man is happier than the unjust man by considering a series of different cities coming into existence "in speech", culminating in a city (Kallipolis) ruled by philosopher-kings; and by examining the nature of existing regimes. The participants also discuss the theory of forms, the immortality of the soul, and the roles of the philosopher and of poetry in society.

This is an English translation of four of Plato's dialogue (Protagoras, Euthydemus, Hippias Major, and Cratylus) that explores the topic of sophistry and philosophy, a key concept at the source of Western thought. Includes notes and an introductory essay. Focus Philosophical Library translations are close to and are non-interpretative of the original text, with the notes and a glossary intending to provide the reader with some sense of the terms and the concepts as they were understood by Plato's immediate audience.

This Introduction to

Aristotle is a presentation in which Aristotle is permitted to speak for himself in the context of a sketched scheme of the relation of what he says in one treatise to what he says elsewhere. The seven introductions which precede these seven works place them in their contexts by describing their relations to other works or parts of works, their place in the scheme of the Aristotelian sciences, and the fashion in which the subjects treated in the sciences they expound may be considered in the approaches proper to other sciences in the system. - Preface.

Bangladesh: Reflections on the Water is a personal and penetrating overview of the land and its people. James J. Novak examines the economy, the

importance of seasonal fluctuations in the lifestyle and psychology of the people, geography, history, music, art, poetry, ways of thinking, and political life. He also offers a novel interpretation of the Bangladesh independence movement, the only full-fledged expression of nationalism to appear in the country's modern history. This nationalism, expressed in poetry, prose, and song, is used to illustrate the interaction between religion and secular thought, language and culture, cultural expression, poetry, and art, and the transformation of culture into political thought.

 Reading Hobbes in light of both the history of ethics and the conceptual apparatus developed in recent work on normativity, this book challenges received interpretations of Hobbes and his historical significance. Arash

Abizadeh uncovers the fundamental distinction underwriting Hobbes's ethics: between prudential reasons of the good, articulated via natural laws prescribing the means of self-preservation, and reasons of the right or justice, comprising contractual obligations for which we are accountable to others. He shows how Hobbes's distinction marks a watershed in the transition from the ancient Greek to the modern conception of ethics, and demonstrates the relevance of Hobbes's thought to current debates about normativity, reasons, and responsibility. His book will interest Hobbes scholars, historians of ethics, moral philosophers, and political theorists.

 A page-turning novel that is also an exploration of the great philosophical

concepts of Western thought, Jostein Gaarder's *Sophie's World* has fired the imagination of readers all over the world, with more than twenty million copies in print. One day fourteen-year-old Sophie Amundsen comes home from school to find in her mailbox two notes, with one question on each: "Who are you?" and "Where does the world come from?" From that irresistible beginning, Sophie becomes obsessed with questions that take her far beyond what she knows of her Norwegian village. Through those letters, she enrolls in a kind of correspondence course, covering Socrates to Sartre, with a mysterious philosopher, while receiving letters addressed to another girl. Who is Hilde? And why does her mail keep turning up? To unravel this riddle, Sophie must use the philosophy she is learning—but the truth turns out to be far more complicated than she could have imagined.
