A Musical Comedy : [and] Director's Stage Guide Arms & Armour

Between the 18th and 19th centuries, Britain experienced massive leaps in technological, scientific, and economical advancement

Stebbins begins with a history of stand-up comedy, giving vital background about the industry as it emerged and flourished in the United States and subsequently developed into a popular form of entertainment in Canada. He deals with the nature of comic performance in comedy rooms - cabarets designed

specifically for stand-up comedy - and examines the career of the comic: how people become interested in comedy, how they progress as amateurs, how they survive on the road and how, sometimes, they become headliners and later writers for film and television. He also discusses the business of comedy: booking agents, comedy chains such as Yuk-Yuk's, room managers, and the comics themselves as entrepreneurs. As the first comprehensive study of a growing phenomenon, *The Laugh-Makers* will interest sociologists of humour and sociologists of occupations and will contribute to our understanding of Canadian popular

culture.

 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and

school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. *Overcoming School Refusal* helps readers understand this complex issue by explaining exactly

what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

Supernova: The Knight, The Princess and the Falling Star presents a series of intertwined and unconventional love stories, straight and gay, with a bit of science and spirituality added to the mix. The major characters are young, urban, and technologically highly aware. They are caught up in major forms of contemporary social conflict. The work has been highly acclaimed. The poet Taufiq Ismail has written: "A renewal has taken place in Indonesian literature over the past decade. Supernova is an intelligent, unique and truly exciting exploration of science, spirituality and the nature of love." The literary critic Jacob Soemardjo suggests: "This is an attractive

novel by a young writer. It is an intellectual work in the form of a work of pop art, set in the real world. It opposes old values with new ways of understanding, so that readers can see the world in a different way."

Humor gets very little respect! While references to the importance of having a sense of humor are liberally sprinkled

throughout the popular media, and it is usually mentioned as one of the qualities of effective employees, it is rare to find purposeful humor practice. Humor is without a doubt the one quality that most of us agree is needed in life. However, it is rare to find serious applications on the benefits of applying humor in everyday life and in our world of work. When the federal government tried to incorporate humor into a staff development program of a federal agency, there was an outcry. It seems that humor was thought to be a waste of taxpayer money, and the program was axed. The purpose of Using Humor to Maximize Living is to affirm, sustain, and encourage

people in the practice of humor not only as a personal tool to optimize a healthy life style, but also to maximize the benefits of humor in everyday life. Check out the research that includes a review on the use of humor to nurture creativity, to increase the capacity for memory retention, to support an optimal work environment, and to build safe communities that reflect the relational trust necessary for maximizing living.
