A complete look at weapons—from the Stone Age and Bronze Age to present day—from spears and swords to

handguns and automatic weapons. When did hunting weapons begin to be used against humans instead of animals? What is the difference between the Plains Indian War Club and the Fijian War Club? What weapon is common to peoples in every part of the world? The Illustrated Encyclopedia of Weaponry is a comprehensive guide to arms and armaments throughout history. Beginning in the Stone Age, The Illustrated Encyclopedia of Weaponry travels through the Bronze Age to our present day, showing the tools humans have used to defend themselves all around the globe. There's the Japanese tanto, or dagger, which have become identified with gangs known as yakuza. There's the flaming arrow used when Swiss and Austrian forces clashed in the

14th century. And there's the revolver that Samuel Colt made practical for both military and civilian use in Hartford, Connecticut. The Illustrated Encyclopedia of Weaponry will help readers better understand how—and why—the battles of history were fought. The Illustrated Encyclopedia of the Roman Empire Simon and Schuster In nearly 1500 entries, many of them strikingly and often surprisingly illustrated, J. C. Cooper has documented the history and evolution of symbols from prehistory to our own day. With over 200 illustrations and lively, informative and often ironic texts, she discusses and explains an enormous variety of symbols extending from the Arctic to Dahomey, from the Iroquois to Oceania, and coming from systems as

diverse as Tao, Christianity, Judaism, Buddhism, Islam, Tantra, the cult of Cybele and the Great Goddess, the Pre-Columbian religions of the Western Hemisphere and the Voodoo cults of Brazil and West Africa.
