A brutal re-imagining of the Gospel story, Next Year in Jerusalem follows the footsteps of Yeshua Bar-Yosif--an illiterate, epileptic, bastard son of a Roman soldier on his ill-fated life

journey through a land racked by terror. As first century Judea bleeds from the oppression of Roman rule and the violent uprisings against it, Yeshua, tormented by familial guilt for abandoning his mother, eventually forms his own family of travelers who preach for peace and compassion in the face of internecine savagery. Their wanderings lead to encounters

with false prophets, assassins, and a rapidly growing movement of extremist rebels whose leader Bar-Abbas' mission is to expel the Romans and establish an ethnocentric theocracy. Chance sends both Yeshua and Bar-Abbas to the court of Pontius Pilate--the dipsomaniac Governor obsessed with leaving a name for himself in the scrolls of history--and the outcome of that

meeting seals the fate of the world for the next two millennia. With urgent parallels to contemporary issues of religious war, this book is both a lament and a warning. It is also a story about the passage of time, the nature of memory, and of mankind's inherent yearning for life everlasting. Transforming Your Credit to Royalty TokyoPop The Fix is the most explosive

story of sports corruption in a generation. Intriguing, riveting, and compelling, it tells the story of an investigative journalist who sets out to examine the world of match-fixing in professional soccer. From the Introduction Understand how gambling fixers work to corrupt a soccer game and you will understand how they move into a basketball league, a cricket tournament, or a tennis

match (all places, by the way, that criminal fixers have moved into). My views on soccer have changed. I still love the Saturday-morning game between amateurs: the camaraderie and the fresh smell of grass. But the professional game leaves me cold. I hope you will understand why after reading the book. I think you may never look at sport in the same way again. From the Hardcover

investigating why the wrong person died on a murder/mystery excursion on a steam train. It seems more than one person wanted the victim dead and the question is: who murdered Major Harkness in full view of 24 people without any of them noticing? As with the Goat Parva Murders and the Manton Rempville Murders, Knowles and Barnes work tirelessly to see through the smokescreens placed in their path. The clues point this way and then that way. More than one person is disappointed to find out they didn't kill the Major before Knowles and Barnes track down the real murderer. Characters from previous books are reintroduced such as Carly Waferr, the magic mushroom lady, who was hired to provide the catering for the excursion train, and Adelaide Hills the owner of Bingo the retriever, who makes his usual significant contribution to the investigation. The verbal sparring of Knowles and Barnes is once again to the fore in this fast-paced ride through the lovely, but dangerous English countryside.

The purpose of this book is to gain a better understanding of the

multitude of factors that determine longer life and improved quality of life in the years a person is alive. While the emphasis is primarily on the social and behavioral determinants that have an effect on the health and well-being of individuals, this publication also addresses quality of life factors and determinants more broadly. Each chapter in this book considers an area of investigation and ends with

suggestions for future research and implications of current research for policy and practice. The introductory chapter summarizes the state of Americans' health and well-being in comparison to our international peers and presents background information concerning the limitations of current approaches to improving health and well-being. Following the introduction, there are 21

chapters that examine the effects of various behavioral risk factors on population health, identify trends in life expectancy and quality of life, and suggest avenues for research in the behavioral and social science arenas to address problems affecting the U.S. population and populations in other developed and developing countries around the

<p>world. Undergraduate and graduate students pursuing coursework in health statistics, health population demographics, behavioral and social science, and health policy may be interested in this content. Additionally, policymakers, legislators, health educators, and scientific organizations around the world may also have an interest in this resource.</p> <p><i>REIMAGINING</i></p>	<p><i>JAPAN</i> New York : Silhouette Books ; Markham, Ont. : Paperjacks REMINGINING <i>JAPAN</i>: Contributors to this volume include some of the world's most brilliant thinkers from fields as diverse as business, politics, academia, science and technology, journalism and art and design. The Fat Burning Diet Carl Fischer Music Dist From cheeky high-street bookmaker to billion-dollar business: the incredible story behind Paddy Power's unstoppable rise. Flutter Entertainment, the parent company of Paddy Power, is the largest gambling business in the world. The evidence of that success is visible everywhere, from shop fronts and bus shelters to sporting arenas and smartphone screens. The company's rise to this point has been rapid, but like any gambler worth their salt, Paddy Power has always succeeded in finding an edge. At the outset those innovations were modest, like offering odds on television shows and giving punters money back on losing bets, but as the company's ambition

grew, so too did its determination to stay one step ahead of the competition, whatever the cost... Impeccably researched and informed

by dozens of insider interviews, Punters is the incredible story of how an unlikely band of misfits and visionaries bet on the future of the gambling

industry and won big. But it's also the story of how that victory may have come at an extraordinary cost - to their customers and society at large.
