The automotive
industry underwent
great change in the
1960s and the early
1970s. The continuing
trend toward market
consolidation, the

proliferation of sizes and nameplates, and the "need for speed" characterized this period, loosely labeled as the muscle car era. This is an exhaustive reference work to American made cars of model years 1960-1972. Organized by year (and summarizing the market annually), it provides a yearly update on each make's status and production figures, then details all models offered for that year. Model listings include available body styles, base prices, engine and transmission choices, power ratings, standard equipment, major options and their prices, curb weight and dimensions (interior and exterior), paint color choices, changes from the previous

year's model, and sales figures. Also given are assembly plant locations and historical overviews of each model nameplate. The book is profusely illustrated with 1,018 photographs.

George Pelecanos's Washington, D.C., is a far cry from the upwardlymobile, tourist-attraction-speckled enclave of Margaret Truman (Murder at the National Cathedral, Murder in Georgetown).

Pelecanos's capital is a haunting terrain of drugs and death, a no man's land of posturing dealers and skeletal warehouses that shelter their buyers:A rat scurried into a dim side room, and a withered black face receded into the darkness. The face belonged to a junkie named Tonio Morris. He was one of the many bottom-of-the-food-chain junkies, near death and too weak to cut out a space of their own on the second floor; later, when the packets were

delivered to those with cash, they'd trade anything they had, anything they'd stolen that day, or any orifice on their bodies for some rock or powder. When PI Derek Strange is hired by Chris Wilson's mother to find out why her son, a black cop, was killed by a white cop, Terry Quinn, on a dark night in that no man's land, Strange figures that the answer is painfully clear: a typical case of mistaken identity, fueled by the assumptions and preconceptions of Quinn's innate racism. But what Strange finds is a tentative kinship with Quinn, who is desperate to proclaim himself "color-blind." Kicked off the force and convinced that there's more to his own

story, Quinn asks to join Strange in his investigation. As the two pry into the past, drifting through the neighborhoods both men have known all their lives, they find themselves enmeshed in a tangle of cold-blooded competition and heated personal enmity. Pelecanos generally has a light touch with the treacherous quagmire of -isms, veering only occasionally into sententious meanderings about the consequences of an economically and racially divided society. His wry humor, particularly in his descriptions of Earl and Ray, the heroin middlemen who bring the concept of white trash to a depressingly low level, leavens the novel's noir bleakness.

And Strange himself is a compelling character: a middle-aged black man who has seen more of life's callousness than he cares to admit, and whose jitteriness about personal commitment speaks volumes about his own expectations for happiness. A strong character and a good read--Pelecanos fans can settle in and look forward to Strange's next appearance. -- Kelly Flynn

Derek Strange is a black ex-cop in Washington D.C. who now makes a living running his own private detective agency. He is hired to investigate the killing of an off-duty black policeman by a white police officer -- a killing that was

supposedly accidental, but that has opened difficult questions about racism on the force. In the course of that investigation the white officer, Terry Quinn, becomes Strange's friend and then his partner. Together they try to uncover what really happened that night, when Quinn came upon a confusing and treacherous crime scene. Along the way they confront the kingpins of a flourishing drug trade and some of the most implacable, dead-eyed killers ever to grace the pages of a novel. *An Analysis of the Crash Experience of Passenger Cars Equipped with Antilock Braking Systems.
