Psychological Testing in Everyday Life explores how psychological testing is used in real-life settings to make the study of psychometrics interesting, relevant, and highly accessible. Author Karen B. Goldfinger examines a broad range of carefully selected topics to capture student interest, encourage critical thinking, and spark class discussions. Organized in the form of an applied casebook, each chapter presents the complex issues that arise when using psychological tests in a variety of settings, providing an in-depth view of psychological testing practices, historically and in the present. This unique text will support students in becoming thoughtful, informed consumers and providers of psychological assessment.

Oswaal Books and Learning Private Limited

Since energy is an important aspect in all sectors, it needs to be given a due attention in education and awareness. Multiple Choice Questions on Energy y attempts to present the subject in a simple yet comprehensive manner for students and aspirants of various competitive exams. Keeping in view the present trend of various exams, the various types of energy have been presented in the form of multiple choice questions, which is the most common pattern of examination in every field of study in the science stream. Energy-related questions figure in various national-level competitive examinations, besides featuring in question papers for examinations in bachelor degree courses on engineering and technology. Multiple Choice Questions on Energy contains about 1300 multiple choice questions covering various sectors of energy, including mechanical energy, electrical energy, chemical energy, nuclear energy, thermal energy, magnetic energy, sound energy, energy from coal, petroleum oil and natural gas, renewable energy, and energy conservation. An introduction to energy has been presented in a comprehensive yet simplified form. This book is useful for academicians, students pursuing engineering or agriculture-related courses, aspirants of various competitive exams, professionals, and stakeholders in the energy sector. It can also be a tool for various quiz programmes organized in schools, universities, engineering institutions.
