Throughout his life, the internationally known novelist, short story writer, and journalist, Ignazio Silone (1900-1978) struggled indomitably for social justice. In this book, Maria Nicolai Paynter discusses the many controversial issues surrounding Silone and his writing, analysing in detail his intellectual and political convictions and assesses the artistic achievement and stylistic development in his works. Paynter argues that a profound authenticity is at the core of Silone's writing and that his tragic vision emanates from a concept of heroism based not on pride and self-serving defiance but rather on moral courage and integrity. Northrop Frye's archetypal criticism and his concept of ironic myth provide the theoretical framework through which Paynter guides

the reader to an understanding of Silone's particular brand of realism and his unique message. Ignazio Silone: Beyond the Tragic Vision is a new, expanded version in English of an earlier Italian-language book which won the Premio Internazionale Letterario Ignazio Silone. It is the first comprehensive book in English on Silone's life, his writings, and their critical reception.

Questo libro nasce dal lavoro di esplorazione, di osservazione e di ricerca mirata sugli interrogativi, i problemi e le incertezze del processo di ricostruzione post-terremoto dell'Aquila, evidenziando come la riattivazione della vita di una città, ricca di identità storica e culturale ma anche di insediamenti produttivi che oggi privilegiano l'innovazione tecnologica, non investe solo la necessaria ricostruzione della dotazione funzionale della struttura urbana, ma anche e soprattutto la dimensione soggettiva, relazionale ed istituzionale di una popolazione che dopo il trauma profondo subito, procede alla rielaborazione della identità dei borghi,

dei quartieri, della città; non senza caricare di grande significato e potenzialità la dimensione della comunicazione sociale, nell'ambito della quale sono entrati media leggeri, flessibili, multiformi e distribuiti che hanno costruito nuove reti sociali e valorizzati nuovi attori protagonisti della riconquista simbolica e sociale della città e dei suoi spazi prima esterni, poi interni alla storica struttura urbana di una città articolata e stratificata come L'Aquila.

**L'incontro di due uomini liberi** Univ. Press of Mississippi

This book presents a semiotic study of the re-elaboration of Christian narratives and values in a corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative.

The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration,

poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose "economies" of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar mentality or disposition toward the world, language and the work of the poet. *Economy of the Unlost* begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on

money and commodities, while Celan's life spanned pre- and post-Holocaust worlds, and he himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's interest in the "negative design" of printmaking: both poets, though in different ways, employ

a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences--Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

One of the major figures of twentieth-century European literature, Ignazio Silone (1900–78) is the subject of this award-winning new biography by the noted Italian historian Stanislao G. Pugliese. A founding member of the Italian Communist Party, Silone took up writing only after being expelled from

the PCI and garnered immediate success with his first book, *Fontamara*, the most influential and widely translated work of antifascism in the 1930s. In World War II, the U.S. Army printed unauthorized versions of it, along with Silone's *Bread and Wine*, and distributed them throughout Italy during the country's Nazi occupation. During the cold war, he was an outspoken opponent of Soviet oppression and was twice considered for the Nobel Prize in Literature. Twenty years after his death, Silone was the object of controversy when reports arose indicating that he had been an informant for the Fascist police. Pugliese's biography, the most comprehensive work on Silone by far and the first full-length biography to be published in English, evaluates all the evidence and

paints a portrait of a complex figure whose life and work bear themes with contemporary relevance and resonance. *Bitter Spring*, the winner of the 2008 Fraenkel Prize in Contemporary History, is a memorable biography of one of the twentieth century's greatest writers against totalitarianism in all its forms, set amid one of the most troubled moments in modern history.
