Louverture, the charismatic leader of the revolution - the only successful slave revolt in history - that led to Haiti's independence two-hundred years ago. Translated by the author himself in collaboration with J. Michael Dash, this new edition captures the striking essence of the original French play (first published in 1961). *The Black Radical Tragic* Bloomsbury Publishing

In many ways the French Revolution--a series of revolutions, in fact, whose end has arguably not yet arrived--is modernity in action. Beginning in reform, it blossomed into wholesale attempts to remake society, uprooting the clergy and aristocracy, valorizing mass movements, and setting secular ideologies, including nationalism, in motion. Unusually manifold and

complicated, the revolution affords many teaching opportunities and challenges. This volume helps instructors seeking to connect developments today--terrorism, propaganda, extremism--with the events that began in 1789, contextualizing for students a world that seems always unmoored and in crisis. The volume supports the teaching of the revolution's

ongoing project across geographic areas (from Haiti, Latin America, and New Orleans to Spain, Germany, and Greece), governing ideologies (human rights, secularism, liberty), and literatures (from well-known to newly rediscovered texts). Interdisciplinary, intercultural, and insurgent, the volume has an energy that reflects its subject. Archipelagic American Studies

University of Virginia Press World Theatre: The Basics presents a well-rounded introduction to non-Western theatre, exploring the history and current practice of theatrical traditions in Asia, Africa, the Middle East, Oceania, the Caribbean, and the non-English-speaking cultures of the Americas. Featuring a selection of case studies and examples from each region, it helps the

reader to understand the key issues surrounding world theatre scholarship and global, postcolonial, and transnational performance practices. An essential read for anyone seeking to learn more about world theatre, World Theatre: The Basics provides a clear, accessible roadmap for approaching non-Western theatre. World Theatre Cambridge University Press Nobel

Laureate Derek Walcott is one of the Caribbean's most famous writers. His unique voice in poetry, drama and criticism is shaped by his position at the crossroads between Caribbean, British and American culture and by his interest in hybrid identities and diaspora. Edward Baugh's Derek Walcott analyses and evaluates Walcott's entire career over the last fifty years. Baugh guides the reader through the continuities and differences of theme and style in Walcott's poems and plays. Walcott is an avowedly Caribbean writer, acutely conscious of his culture and colonial heritage, but he has also made a lasting contribution to the way we read and value the western literary tradition. This comprehensive survey considers each of Walcott's published books, offering a guide for students, scholars and readers of Walcott. Students of Caribbean and postcolonial studies will find this a perfect introduction to this important writer. *We Pursue Our Magic* Oxford University Press Departing from conventional narratives of the United States and the Americas as fundamentally continental spaces, the contributors to

Archipelagic American Studies theorize America as constituted by and accountable to an assemblage of interconnected islands, archipelagoes, shorelines, continents, seas, and oceans. They trace these planet-spanning archipelagic connections in essays on topics ranging from Indigenous sovereignty to the work of Édouard Glissant, from Philippine call centers to US militarization in the Caribbean, and from the great Pacific garbage patch to enduring overlaps between US imperialism and a colonial Mexican archipelago. Shaking loose the straitjacket of continental exceptionalism that hinders and permeates Americanist scholarship, Archipelagic American Studies asserts a more relevant and dynamic approach for thinking about the geographic, cultural, and political claims of the United States within broader notions of America.

writing in the Andes, and baroque art while pointing to future work on the issues raised. This work engages with anthropology, history, individual memory, testimonio, and environmental studies. It also explores: A thorough introduction to topics of coloniality, including the mapping of the pre-Columbian Americas and colonial religiosity

Comprehensive explorations of the emergence of national communities in New Imperial coordinates, including discussions of the Muisca and Mayan cultures

Practical discussions of global and local perspectives in Latin American literature, including explorations of Latin American photography and cultural modalities and cross-cultural connections

In-depth examinations of uncharted topics in Latin American literature and culture, including discussions of femicide and feminist performances and eco-perspectives

Perfect for students in undergraduate and graduate courses tackling Latin American literature and culture topics, A Companion to Latin American Literature and Culture, Second Edition will also earn a place in the libraries of members of the general

public and PhD students interested in Latin American literature and culture. Caribbean Literature in Transition, 1920-1970: Volume 2 Taylor & Francis Haitian Modernity and Liberative Interruptions investigates the intersections of history, literature, race, religion, decolonization, and freedom that led to the founding of the postcolonial state of Haiti in 1804.

Particular attention is given to the place of religion in the Haitian Revolution, as well as to the interpretation and representation of this singular event in the work of Frederick Douglass and Langston Hughes. This book not only examines the multiple legacies and the problems of Enlightenment modernity, imperial colonialism, Western racism, and hegemony, but also

studies their complex relationships with the institutions of slavery, religion, and Black freedom. Topics range from Makandal's postcolonial religious imagination to Boukman's liberation theology to Langston Hughes' discussion of the role of prophetic religion in the Haitian Revolution. Haitian Modernity and Liberative Interruptions also compares Du Bois's

 The Haitian Revolution (1791-1804) reshaped the debates about slavery and freedom throughout the Atlantic world, accelerated the abolitionist movement, precipitated rebellions in neighboring territories, and intensified both repression and antislavery

sentiment. The story of the birth of the world's first independent black republic has since held an iconic fascination for a diverse array of writers, artists, and intellectuals throughout the Atlantic diaspora. Examining twentieth-century responses to the Haitian Revolution, Philip Kaisary offers a profound new reading of the representation of the Revolution by radicals and

conservatives alike in primary texts that span English, French, and Spanish languages and that include poetry, drama, history, biography, fiction, and opera. In a complementary focus on canonical works by Aimé Césaire, C. L. R. James, Edouard Glissant, and Alejo Carpentier in addition to the work of René Depestre, Langston Hughes, and Madison Smartt Bell,

Kaisary argues that the Haitian Revolution generated an enduring cultural and ideological inheritance. He addresses critical understandings and fictional reinventions of the Revolution and thinks through how, and to what effect, authors of major diasporic texts have metamorphosed and appropriated this spectacular corner of black revolutionary history.

The Haitian Revolution in the Literary Imagination
 Lexington Books
 Toussaint L'Ouverture was the leader of the Haitian Revolution in the late eighteenth century, in which slaves rebelled against their masters and established the first black republic. In this collection of his writings and speeches, former Haitian politician Jean-Bertrand Aristide demonstrates L'Ouverture's profound contribution to the struggle for equality. *Ici-là* Modern Language Association
 What would it mean to "get over slavery"? Is such a thing possible? Is it even desirable? Should we perceive the psychic hold of slavery as a set of mental manacles that hold us back from imagining a postracist America? Or could the psychic hold of slavery be understood as a tool, helping us get a grip on the systemic racial inequalities and restricted liberties that persist in the present day? Featuring original essays from an array of established and emerging scholars in the interdisciplinary field of African American studies, *The Psychic Hold of Slavery* offers a nuanced dialogue upon these questions. With a painful awareness that our understanding of the past informs our understanding of the present—and

vice versa—the contributors place slavery’s historical legacies in conversation with twenty-first-century manifestations of antiblack violence, dehumanization, and social death. Through an exploration of film, drama, fiction, performance art, graphic novels, and philosophical discourse, this volume considers how artists grapple with questions of representation, as they ask

whether slavery can ever be accurately depicted, trace the scars that slavery has left on a traumatized body politic, or debate how to best convey that black lives matter. *The Psychic Hold of Slavery* thus raises provocative questions about how we behold the historically distinct event of African diasporic enslavement and how we might hold off the transhistorical

force of antiblack domination. *The Black Radical Tragic* Cambridge Scholars Publishing *Black Women and Energies of Resistance in Nineteenth-Century Haitian and American Literature* intervenes in traditional narratives of 19th-century American modernity by situating Black women at the center of an increasingly connected world. While traditional accounts of modernity have

emphasized advancements in communication technologies, animal and fossil fuel extraction, and the rise of urban centers, Mary Grace Albanese proposes that women of African descent combated these often violent regimes through diasporic spiritual beliefs and practices, including spiritual possession, rootwork, midwifery, mesmerism,

prophecy, and wandering. It shows how these energetic acts of resistance were carried out on scales large and small: from the constrained corners of the garden plot to the expansive circuits of global migration. By examining the concept of energy from narratives of technological progress, capital accrual and global expansion, this book uncovers new stories that center Black women at the

heart of a pulsating, revolutionary world.

The second volume of the World Encyclopedia of Contemporary Theatre covers the Americas, from Canada to Argentina, including the United States. Entries on twenty-six countries are preceded by specialist introductions on Theatre in

Post-Colonial Latin America, Theatres of North America, Puppet Theatre, Theatre for Young Audiences, Music Theatre and Dance Theatre. The essays follow the series format, allowing for cross-referring across subjects, both within the volume and between volumes. Each country entry is written by specialists in the particular country and the volume has its own teams of

regional editors, overseen by the main editorial team based at the University of York in Canada headed by Don Rubin. Each entry covers all aspects of theatre genres, practitioners, writers, critics and styles, with bibliographies, over 200 black & white photographs and a substantial index. This is a unique volume in its own right; in conjunction with the other

volumes in this series it forms a reference resource of unparalleled value. Reimagining the Caribbean Rodopi Selected essays from the rich and complex collection of Edouard Glissant, one of the most prominent writers and intellectuals of the Caribbean, examine the psychological, sociological, and philosophical implications of cultural dependency. **The Black Jacobins**

Routledge
 "An original and significant writer, whose fiction can be as engaging as it is surprising."
 The Times Literary Supplement
The Oxford Handbook of the Ends of Empire NYU Press
 Li-Chun Hsiao attempts to rethink, under the rubric of globalization, several key notions in postcolonial theory and writings by revisiting what he conceives as "the primal scene of postcoloniality"—the Haitian Revolution. He unpacks and critiques the post-structuralist penchants and undercurrents of the postcolonial paradigm in First-World academia while not reinstating earlier Marxist stricture. Focusing on Edouard Glissant's, C. L. R. James's, and Derek Walcott's representations of Toussaint L'Ouverture and the Haitian Revolution, the textual analyses approach the issues of colonial mimicry, postcolonial nationalism, and postcoloniality in light of recent reconsiderations of the universal and the particular in critical theories, and psychoanalytic conceptions of trauma, identity, and jouissance. Hsiao argues that postcolonial intellectuals' characteristic celebration of the Particular, together with their nuanced denunciation of the postcolonial nation and the

Revolution, doesn't really do away with the category of the Universal, nor twist free of the problematic of the logics of difference/equivalence that sustains the

"living on" of the nation-state, despite an ever expanding globality; rather, such a postcolonial phenomenon is symptomatic of a disavowed traumatic

event that mirrors and prefigures the predicament of the postcolonial experience while invoking its simulacra and further struggles centuries later.
