About this Book / Bristol born Banksy is usually categorized as a Street Artist, although his art, in content and form, transcends a narrow understanding of this term. This publication primarily deals with Banksy as a contemporary Urban Artist and his relationship with consumer culture. It examines Banksy not only in light of his illicit work on the street, but also in regard to his gallery exhibitions. The study highlights representative works of his art, pieces which demonstrate his versatility, but also stand for different periods of his oeuvre. This book presents the first academic study of Banksy's art in English; with a history and discussion of the terms Graffiti, Street Art and Urban Art and a rich array of biographical information. It will be of interest to academics and the general public as well. About this Edition / Street Artist Banksy and former Young British artist Damien Hirst are two of the most popular representatives of British contemporary art. Situated in a triangle of art, consumerism and pop culture their work is among the most well-known. A systematic academic study of their artistic viewpoints and references to consumer culture has long been missing, and Ulrich Blanche is finally closing this gap: He examines Hirst's and Banksy's art against the background of the London art scene since 1980. Blanche points out connections to Duchamp, Warhol and Koons, and reflects on the role of the observer, the meaning of location and, especially, the references between art, consumer culture and marketing in their pieces. This two volume edition is the translated and expanded version of the authors dissertational thesis."

The Bullet Journal Method Laurence King Publishing

THE NEW YORK TIMES BESTSELLER Transform your life using the Bullet Journal Method, the revolutionary organisational system and worldwide phenomenon. The Bullet Journal Method will undoubtedly transform your life, in more ways than you can imagine! Hal Elrod, author of The Miracle Morning In his long-awaited first book, Ryder Carroll, the creator of the enormously popular Bullet Journal organisational system, explains how to use his method to: * TRACK YOUR PAST: using nothing more than a pen and paper, create a clear, comprehensive, and organised record of your thoughts and goals. * ORDER YOUR PRESENT: find daily calm by prioritising and minimising your workload and tackling your to-do list in a more mindful and productive way. * PLAN YOUR FUTURE: establish and appraise your short-term and long-term goals, plan more complex projects simply and effectively, and live your life with meaning and purpose. Like many of us, Ryder Carroll tried everything to get organised - countless apps, systems, planners, you name it. Nothing really worked. Then he invented his own simple system that required only pen and paper, which he found both effective and calming. He shared his method with a few friends, and before long he had a worldwide viral movement. The system combines elements of a wishlist, a to-do list, and a diary. It helps you identify what matters and set goals accordingly. By breaking long-term goals into small actionable steps, users map out an approachable path towards continual improvement, allowing them to stay focused despite the crush of incoming demands. But this is much more than a time management book. It's also a manifesto for what Ryder calls "intentional living": making sure that your beliefs and actions align. Even if you already use a Bullet Journal, this book gives you new exercises to become more calm and focused, new insights on how to prioritise well, and a new awareness of the power of analogue tools in a digital world. *** This book has been printed with three different colour designs, black, Nordic blue and emerald. We are unable to accept requests for a specific cover. The different covers will be assigned to orders at random. ***
