What will you do when you encounter identity theft within your business? Chances are, you have already lost money to identity theft and business fraud. Look no further than the latest newspaper headlines to know that it is an epidemic problem and an alarming reality from which no business—whether small or large—is immune. Although you can't completely stop identity theft from happening, you can be prepared when it takes place. Investigating Identity Theft: A Guide for Businesses, Law Enforcement, and Victims is your practical guide for fully understanding and investigating identity theft. "The training that I received from Judy Collins at MSU has been instrumental to my helping victims of identity theft and locating the person(s) who caused their nightmare. I have even used the training methods she outlines in this book on a homicide investigation and it paid off: the perpetrator is now in jail for the rest of his life. I can't say enough about Dr. Collins and her knowledge of tracking criminals on the Internet; she is a great asset to law enforcement." -Anthony Abdallah, Police Detective, Inkster Police Department (CID), Inkster, Michigan "This valuable book is an essential, pragmatic guide for the full understanding and investigation of identity theft crimes. It also establishes Dr. Judith Collins as a foremost national expert on this growing crime problem that threatens our future." -Dr. Bruce L. Benson, Police Chief Emeritus, Associate Professor, Criminal Justice, Michigan State University "Whether the investigator is working in the private or public sector, Dr. Collins presents valuable information on the methodology required to successfully resolve identity theft cases. The use of real-life investigations, with lessons learned, provides an intriguing and entertaining format while at the same time sharpening the investigator's skills. If you think investigating identity theft is not worthwhile because the crime is committed by individuals on randomly selected victims without specific objectives, goals, or purpose, you need to read this book." -Rod Kinghorn, Director of Investigations, General Motors Global Security "An excellent book. Judith Collins has spent many years investigating identity theft. Her willingness to share her knowledge with law enforcement, businesses, and victims is truly a benefit that cannot be found elsewhere." -Juli Liebler, Captain, East Lansing Police Department, East Lansing, Michigan "Well done. Smart idea. . . . This is an excellent, professionally written book . . . and much needed." -Salman Anwar, Computer Forensic Engineer, Western Michigan University Police Department "As a retired special agent with the Federal Bureau of Investigation, and having worked the past six years

in the private sector, I found Dr. Collins's book to be an invaluable tool for both the private sector and the law enforcement community. Dr. Collins provides genuine insight into the complex issues surrounding identity theft. I am confident her book will assist in both the prevention of identity theft and the detection of those who prey on other's identities." -Frank Laudan, Investigator, Securitas Security Services USA, Inc. "Excellent guide! A must-read for anyone involved in investigating identity theft! Dr. Collins has become one of the most respected and knowledgeable authorities in this relatively new field." -Detective Gary A. Guiles (Retired), Fraud Investigator, Lansing Police Department, Lansing, Michigan

The Stone Age Diet Department of Regional Development and Environment Etariat for Ec This book provides a wide-range exploration on the ongoing research and developmental events in environmental nanotechnology. Emerging nanomaterials and its technology have been known to offer unique advantages and are continually showing promising potential attracting continuous global attention. This work thus discusses experimental studies of various nanomaterials along with their design and applications and with specific attention to chemical reactions and their challenges for catalytic systems. It will make a noteworthy appeal to scientists and researchers working in the field of nanotechnology for environmental sciences.

**International Energy Conservation Code** University of Georgia Press

This book presents a wide range of contributions addressing diverse aspects of biodiversity exploitation and conservation. These collectively provide a snapshot of ongoing action and state-of-the-art research, rather than a series of necessarily more superficial overviews. Examples presented here derive from studies in 17 countries including Africa, Asia, Europe, and North and South America. These reports will stimulate future work toward attaining a sustainable balance between the conservation and exploitation of biodiversity.

DK's highly regarded, eye-catching, and comprehensive cartography is presented in classic form in this fully updated geographic tome, the second edition of Complete Atlas of the World. All maps enjoy a full double-page spread, maximizing the space for geographic information. The continents are broken down into 330 carefully selected map areas reflecting a meaningful division of the modern world. A section on thought-provoking global topics and an index of 100,000 placenames support the core atlas. This atlas is has been structured into four sections. The first section is a world overview, containing a stimulating series of global thematic maps which explore Earth's place in the universe, its physical forms and processes, the living world, and the human condition. The second section comprises the main atlas, examined in a series of 330 maps, including more than 100 city plans. In section three, all 195 countries of the world are presented along with up-to-date geopolitical facts. In the fourth and final section, a clearly styled index of all 100,000 placenames is provided.

"In 61 country reports and 12 reports on international processes, The Indigenous World 2012 gives a comprehensive update on the current situation of indigenous peoples and their human rights, and reports on the most important developments in international processes of relevance to indigenous peoples during 2011. The majority of the country reports document how the escalating momentum of the extractive industries is seriously threatening indigenous peoples' lives, livelihoods and cultures worldwide. They also reflect the importance given to discussions over indigenous peoples' right to participate in decision-making processes. On the international agenda, special focus was on the states' duty to consult indigenous peoples in order to seek their free, prior and informed consent when issues that will affect their lives and future are planned, and on defining best practices and modalities for participation and consultation processes that comply with indigenous peoples' rights." --from IWGIA Website.

SOON TO BE A SERIES FROM APPLE TV! A New York Times Bestseller The revered New York Times bestselling author returns with a novel set in 1960s Baltimore that combines modern psychological insights with elements of classic noir, about a middle-aged housewife turned aspiring reporter who pursues the murder of a forgotten young woman. In 1966, Baltimore is a city of secrets that

everyone seems to know—everyone, that is, except Madeline “Maddie” Schwartz. Last year, she was a happy, even pampered housewife. This year, she’s bolted from her marriage of almost twenty years, determined to make good on her youthful ambitions to live a passionate, meaningful life. Maddie wants to matter, to leave her mark on a swiftly changing world. Drawing on her own secrets, she helps Baltimore police find a murdered girl—assistance that leads to a job at the city’s afternoon newspaper, the Star. Working at the newspaper offers Maddie the opportunity to make her name, and she has found just the story to do it: Cleo Sherwood, a missing woman whose body was discovered in the fountain of a city park lake. If Cleo were white, every reporter in Baltimore would be clamoring to tell her story. Instead, her mysterious death receives only cursory mention in the daily newspapers, and no one cares when Maddie starts poking around in a young Black woman's life—except for Cleo's ghost, who is determined to keep her secrets and her dignity. Cleo scolds the ambitious Maddie: You're interested in my death, not my life. They're not the same thing. Maddie’s investigation brings her into contact with people that used to be on the periphery of her life—a jewelry store clerk, a waitress, a rising star on the Baltimore Orioles, a patrol cop, a hardened female reporter, a lonely man in a movie theater. But for all her ambition and drive, Maddie often fails to see the people right in front of her. Her inability to look beyond her own needs will lead to tragedy and turmoil for all sorts of people—including Ferdie, the man who shares her bed, a police officer who is risking far more than Maddie can understand.

In post-Cold War Moscow, business is booming and crime pays Capitalism has come to Russia, and money is raining from the sky. As the trickle of cash turns to a torrent, bureaucrats become oligarchs, and the brutal Russian mafia consolidates its power. In the center of this madness is police inspector Porfiry Rostnikov, a thoughtful detective who is struggling to adjust to life in these turbulent times. A prominent businessman is kidnapped in broad daylight, minutes after finishing the paperwork to start his latest business venture. Three children, as innocent-looking as they are savage, terrorize a slum. And tax collectors discover a cache of historic Russian treasures dating to before the Revolution, but the trove vanishes overnight. As his country races into the future, the limping policeman will have to run to keep up.

A comprehensive dictionary of outstanding master-planned residential developments, this guide focuses on the elements that appeal to the great majority of retirees and features basic information on each community.

**Climatological Data** Ryan Erisman, Inc.

This is the first comprehensive firefly guide for eastern and central North America ever published. It is written for all those who want to know more about the amazing world of lightning bugs and learn the secrets hidden in the flash patterns of the 75+ species found in the eastern and central U.S. and Canada. As an independent researcher working with numerous university teams, naturalist Lynn Frierson Faust, "The Lightning Bug Lady," has spent decades tracking the behavior and researching the habitats of these fascinating creatures. Based on her twenty-five years of field work, this book is intended to increase understanding and appreciation of bioluminescent insects while igniting enthusiasm in a fun and informative way. Species accounts are coupled with historical background and literary epigraphs to engage and draw readers young and old into the world of these tiny sparklers. A chart documenting the flash patterns of the various species will aid in identification. Clear photos illustrate the insects' distinguishing physical characteristics, while habitats, seasonality, and common names are provided in clear, easy-to-understand yet scientifically accurate language. The guide will be welcomed by everyone who wants to learn more about fireflies' and glow-worms' unique traits and about their fragile niche in the ecosystem. FEATURES Over 600 color photographs Detailed accounts and anatomical diagrams of 75+ species, as well as aids in distinguishing between similar species A first-of-its-kind flash-pattern chart that folds out on heavy-weight paper • Extensive scientific details written in an understandable and engaging way Colorful, common names—Twilight Bush Baby, Shadow Ghosts, and Snappy Syncs, and more—for easy species identification based on flash patterns Tips on ideal sites and times of year for firefly watching Conservation-oriented approach

*The Nominal Roll of Vietnam Veterans* Ryan Erisman Incorporated

Ibrahim is a young Muslim guy walking from Cardiff to London. He has his own reasons, and his own mental and physical struggles to deal with along the way. What he hadn't counted on was a chance meeting with 75-year-old East Londoner Reenie before he's hardly started. With her life's luggage in a shopping trolley, complete with an orange tent and her pet cockatiel, Reenie is also walking the M4, and not for charity. As they share a journey their paths stretch out before and behind them into the personal and political turns of European history in ways neither could have foreseen. An impressive and daringly human book from novelist David Llewellyn.

Scholarly essays on the achievements of female artists working in and inspired by the American South Looking back at her lengthy career just four years before her death, modernist painter Nell Blaine said, "Art is central to my life. Not being able to make or see art would be a major deprivation." The Virginia native's creative path began early, and, during the course of her life, she overcame significant barriers in her quest to make and even see art, including serious vision problems, polio, and paralysis. And then there was her gender. In 1957 Blaine was hailed by Life magazine as someone to watch, profiled alongside four other emerging painters whom the journalist praised "not as notable women artists but as notable artists who happen to be women." In *Central to Their Lives*, twenty-six noted art historians offer scholarly insight into the achievements of female artists working in and inspired by the American South. Spanning the decades between the late 1890s and early 1960s, this volume examines the complex challenges these artists faced in a traditionally conservative region during a period in which women's social, cultural, and political roles were being redefined and reinterpreted. The presentation—and its companion exhibition—features artists from all of the Southern states, including Dusti Bongé, Anne Goldthwaite, Anna Hyatt Huntington, Ida Kohlmeyer, Lois Mailou Jones, Alma Thomas, and Helen Turner. These essays examine how the variables of historical gender norms, educational barriers, race, regionalism, sisterhood, suffrage, and modernism mitigated and motivated these women who were seeking expression on canvas or in clay. Whether working from studio space, in spare rooms at home, or on the world stage, these artists made remarkable contributions to the art world while fostering future generations of artists through instruction, incorporating new aesthetics into the fine arts, and challenging the status quo. Sylvia Yount, the Lawrence A. Fleischman Curator in Charge of the American Wing at the Metropolitan Museum of Art, provides a foreword to the volume. Contributors: Sara C.
