Ways of Being Non/Sovereign Oxford University Press, USA

This collection is a critical reflection of the evolution of Caribbean countries since the demise of the West Indies Federation in 1962. At this historical juncture, some territories opted for independence while others remained dependent territories. The volume examines Caribbean societies in comparative and general ways, covering aspects of their ongoing development and challenges. It covers such areas as Caribbean integration, the state of human capital and social policy in the region, the

education sector, Caribbean economic sustainability, and, significantly, the physical environment of the Caribbean. A central question has always been: should these territories have gone independent or stayed under some British tutelage? The book addresses this question, illustrating that these island states have made considerable progress, especially in the maintenance and deepening of democratic practices.

Moving from Infancy to Young Adulthood Oxford University Press, USA

Moving from Infancy to Young Adulthood is a contemporary review of the development of the Virgin Islands (BVI) within an economic and political context. Specifically, this book is an excellent medium presenting contemporary perspectives of how the BVI has grown and evolved over the past 50-60 years. Whenever a country is seriously considering its development path over a period of time, it must engage in national development and nation building activities, which will allow its citizens to accelerate and inevitably enhance their quality of life. This book explores these possibilities and comments on the present systems that must be reviewed carefully before future development projects are undertaken in the BVI. Overall, this book will be of interest to island scholars, practitioners, policy makers and students who are interested in the research of small islands within the Caribbean. In particular, persons concentrating in Virgin Islands Studies will find this book a must-read.

They were outcasts, the forgotten boys of Trinidad and Tobago imprisoned for violent crimes including armed robbery and murder. They had nothing left but a wish for a better life, the feeling that they would need an education to achieve their goals, and a desperate desire to find an English teacher. In 2010 Debbie Jacob entered the gates of the Youth Training Centre (YTC), the remand centre for boys in the Caribbean island of Trinidad - it would be a move that would change her life and the lives of her young charges forever. Based on a true story, *Wishing for Wings* recounts Debbie's challenging journey of preparing seven young men for the Caribbean Examinations Council (CXC) English Language exam. Heartbreaking but also encouraging, Debbie's story and those of her students, offer an unprecedented look into the lives of troubled teens and boys in prison. The realities of the education and justice systems are brought into sharp focus as are issues such as teaching (formal) English in a Creole speaking environment. It is a story of challenge and triumph; of rebellion and redemption; of loss and of learning, but most of all it is about the Power of Love. Debbie Jacob took a chance with her students, and they took a chance with her. In the end, both teacher and students would discover just how much they had come to need each other. Impossible to put down, *Wishing for Wings* captures both the fear and the pleasure of one teacher in uncharted

territory; and the hope and trust sustaining her students. The story of their journey together will make you cry and make you smile, but most of all, it will remind you of the enduring power of faith and love.

"Children's literature is a contested terrain, as is multicultural education. Taken together, they pose a formidable challenge to both classroom teachers and academics.... Rather than deny the inherent conflicts and tensions in the field, in *Critical Multicultural Analysis of Children's Literature: Mirrors, Windows, and Doors*, Maria José Botelho and Masha Kabakow Rudman confront, deconstruct, and reconstruct these terrains by proposing a reframing of the field.... Surely all of us – children, teachers, and academics – can benefit from this more expansive understanding of what it means to read books." Sonia Nieto, From the Foreword
Critical multicultural analysis provides a philosophical shift for teaching literature, constructing curriculum, and taking up issues of diversity and social justice. It problematizes children's literature, offers a way of reading power, explores the complex web of sociopolitical relations, and deconstructs taken-for-granted assumptions about language, meaning, reading, and literature: it is literary study as sociopolitical change. Bringing a critical lens to the study of multiculturalism in children's literature, this book prepares teachers, teacher educators, and researchers of children's literature to analyze the ideological dimensions of reading and studying literature. Each chapter includes recommendations for classroom application, classroom research, and further reading. Helpful end-of-book appendixes include a list of children's book awards, lists of publishers, diagrams of the power continuum and the theoretical framework of critical multicultural analysis, and lists of selected children's literature journals and online resources.

Equaliberty in the Dutch Caribbean is a collection of essays that explores fundamental questions of equality and freedom on the non-sovereign islands of the Dutch Caribbean. Drawing on in-depth ethnographic research, historical and media analysis, the study of popular culture, and autoethnographic accounts, the various contributions challenge conventional assumptions about political non/sovereignty. While the book recognizes the existence of nationalist independence movements, it opens a critical space to look at other forms of political articulation, autonomy, liberty, and a good life. Focusing on all six different islands and through a multitude of voices and stories, the volume engages with the everyday projects, ordinary imaginaries, and dreams of equaliberty alongside the work of independistas and traditional social movements aiming for more or full self-determination. As such, it offers a rich and powerful telling of the various ways of being in and belonging to our contemporary postcolonial world.
