Title of 2021 Oil-
soaked and swamp-
born, the bruised
optimism of Huebert's

stories offer sincere appreciation of the beauty of our wilted, wheezing world. From refinery operators to long term care nurses, dishwashers to preppers to hockey enforcers, Chemical Valley's compassionate and carefully wrought stories cultivate rich emotional worlds in and through the dankness of our bio-chemical animacy. Full-hearted, laced throughout with bruised optimism and sincere appreciation of the profound beauty of our wilted, wheezing world, Chemical Valley doesn't shy away from urgent modern questions—the distribution of toxicity, environmental racism, the place of technoculture in this ecological spasm—but grounds these

anxieties in the vivid and often humorous intricacies of its characters' lives. Swamp-wrought and heartfelt, these stories run wild with vital energy, tilt and teeter into crazed and delirious loves.

(1915-2000) is one of Australia's best loved, and essential, poets, devoted to place, responsive to landscape and to the violence done to the land and its inhabitants. As John Kinsella writes in his introduction, 'she looked inwards into Australia, and in doing so made the local...universal'. A Human Pattern, a selected poems she prepared after she had abandoned writing poetry in order to devote her time to fighting for Aboriginal rights and conservation, presents her best work from 1946 to her last collection, Phantom Dwelling (1986). Australia, alive with human and natural history, is vibrant in this selection. She is,

John Kinsella writes, 'a poet of human contact with the land'. She speaks directly to our perennial concerns.

exquisitely crafted

Alistair MacLeod to be

a master. Quietly,

precisely, he has created a body of work

that is among the

greatest to appear in

English in the last fifty

years. A book-besotted

obligations of the sea.

A father provokes his

A passionate girl who grows up on a nearly deserted island turns into an ever-wistful woman when her one true love is felled by a logging accident. A dying young man listens to his grandmother play the old Gaelic songs on her ancient violin as they both fend off the inevitable. The events that propel MacLeod's stories convince us of the importance of tradition, the beauty of the landscape, and the necessity of memory.

An Introduction to Island Studies Learning Links

The product of ongoing research projects in design and technology teaching, this book summarizes the lessons learned. The book focuses on the design activity, on learning, teaching and assessment, and, more widely, on what can be learnt about the research process itself.

The authors aim to answer questions such as how active, concrete learning enables cognitive and emotional growth? Researching such questions, the authors integrate the conceptual, the practical and the pedagogic.

When the Island had Fish is the story of a tiny island, Vinalhaven Maine, that offers a close look at the significant history of Maine fishing particularly, but also offers perspective on the impact of industrialized fishing on small fishing villages all over the United States and the world. Vinalhaven's documented habitation by fishermen dates

back over 5000 years, and still today lobstering is the primary source of employment for its 1100 year round residents; islanders currently harvest lobsters at a rate almost unrivaled nationally. The book investigates the changing meanings of the notion of a "fishing community" and of community members changing relationships with the natural world and with international commerce. Through this broader lens, it sheds light on the way that species, including humans, are impacted by - and at moments contribute to - climate change, environmental degradation, and sustainable and unsustainable uses of natural resources. When the Island had

Fish also provides a meditation on America's past and future. Vinalhaven's fishing history is in every way America's history. It's a story of habitations by native peoples and European-American settlers, their use of natural resources, their communities and kin, and their efforts to find ways to live in a harsh environment. Anyone interested in creating a viable collective future will learn from reading about the Penobscot Bay fisheries and fishermen, and about Vinalhaven's citizens' expansive knowledge of craft, husbandry, self-governance and community independence, and interdependence.

Alexander MacDonald guides us through his family's mythic past as he recollects the heroic stories of his people: loggers, miners, drinkers, adventurers; men forever in exile, forever linked to their clan. There is the legendary patriarch who left the Scottish Highlands in 1779 and resettled in "the land of trees," where his descendents became a separate Nova Scotia clan. There is the team of brothers and cousins, expert miners in demand around the world for their dangerous skills. And there is Alexander and his twin sister, who have left Cape Breton and prospered, yet are

haunted by the past. Elegiac, hypnotic, by turns joyful and sad, *No Great Mischief* is a spellbinding story of family, loyalty, exile, and of the blood ties that bind us, generations later, to the land from which our ancestors came.

The highly anticipated follow-up to Alexander MacLeod's critically acclaimed debut, *Animal Person* is a wry and perfectly-observed collection of short stories about intimacy, family and the struggle to connect *Animal Person* is a collection of startling juxtapositions. Criminals and bystanders, siblings and strangers, infants, adolescents, young parents, and the elderly, mammals,

reptiles and fish: unexpected encounters occur and every meeting is an opportunity for recognition or rejection. An empty-nest couple, separated after years of coexisting, find themselves pulled into the dreams of their silent, gazing rabbit; a mysterious passenger in search of his missing suitcase roams through the caverns of a 1970s LA airport; a piano recital goes wildly astray; and a great-aunt refuses to apologise as she struggles to find a place for everything in the tight space of her senior's apartment. In the adjoining motel room, a serial killer plans his next move; and a petty argument between two sisters is interrupted by an

unexpected visitor. The eight stories in *Animal Person* are filled with wonder and yearning as MacLeod captures the fleeting intensities that shape all of our lives. MacLeod is a master of the short story form, and this is a collection that beats with raw emotion and shimmers with the complexity of our shared human experience.

Island: The Complete Stories

Random House
The islands of the Outer Hebrides are home to some of the most remote and spectacular scenery in the world. They host an astonishing range of mysterious structures - stone circles, beehive dwellings, holy wells and 'temples' from the Celtic era. Over a twelve-day pilgrimage, often in appalling conditions, Alastair McIntosh returns to the islands of his childhood

and explores the meaning of these places. Traversing moors and mountains, struggling through torrential rivers, he walks from the most southerly tip of Harris to the northerly Butt of Lewis. The book is a walk through space and time, across a physical landscape and into a spiritual one. As he battled with his own ability to endure some of the toughest terrain in Britain, he met with the healing power of the land and its communities. This is a moving book, a powerful reflection not simply of this extraordinary place and its people met along the way, but of imaginative hope for humankind.

The stories of *The Lost Salt Gift of Blood* are remarkably simple – a family is drawn together by shared and separate losses, a child’s reality conflicts with his parents’ memories, a young man struggles to come to terms with the loss of his father. Yet each piece of writing in this critically acclaimed collection is infused with a powerful life of its own, a precision of language and a scrupulous fidelity to the reality of time and place, of sea and Maritime farm. Focusing on the complexities and abiding mysteries at the heart of human relationships, the seven stories of *The Lost Salt Gift of Blood* map the close bonds and impassable chasms that lie

between man and woman, parent and child.

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain.

Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.
