"Due to significant political and social changes over the last decade in their countries and worldwide, many scholars in the Nordic nations and in Southern Africa have been researching on 'music and identity' - an area with a paucity of literature. It is our hope that this book will be beneficial to scholars interested in the field of music and identity. This volume is the result of the Swedish South African Research Network (SSARN) project, funded from 2004-2006 by the Swedish International Development Cooperation Agency (SIDA) and the National Research Foundation (NRF) of South Africa, under the theme 'Music and Identity'. SSARN was founded by Stig-Magnus Thorsén of the University of Gothenburg, Sweden, in 2002 when he invited Nordic and Southern African scholars to participate in a research group focusing broadly on the topic 'Music and Identity'"--Publisher's website.

Melding memorable music and inspiring history, Freedom Song presents a fresh

perspective on the civil rights movement by showing how songs of hope, faith, and freedom strengthened the movement and served as its voice. In this eye-opening account, you'll discover how churches and other groups--from the SNCC Freedom Singers to the Chicago Children's Choir--transformed music both religious and secular into electrifying anthems that furthered the struggle for civil rights. From rallies to marches to mass meetings, music was ever-present in the movement. People sang songs to give themselves courage and determination, to spread their message to others, to console each other as they sat in jail. The music they shared took many different forms, including traditional spirituals once sung by slaves, jazz and blues music, and gospel, folk, and pop songs. Freedom Song explores in detail the galvanizing roles of numerous songs, including "Lift Every Voice and Sing," "The Battle of Jericho," "Wade in the Water," and "We Shall Overcome." As Rosa Parks, Martin Luther King Jr., and many others took a stand against prejudice and segregation, a Chicago minister named Chris Moore started a children's choir that embraced the spirit of the civil rights movement and brought young people of different races together, young people who lent their voices to support African Americans struggling for racial equality. More than 50 years later, the Chicago Children's Choir continues its commitment to freedom and justice. An accompanying CD, *Songs on the Road to Freedom*, features the CCC performing the songs discussed throughout the book.

So You Want to Sing World Music

Chicago Review Press

Choral music is now undoubtedly the foremost genre of participatory music making, with more people singing in choirs than ever before. Written by a team of leading international practitioners and

scholars, this Companion addresses the history of choral music, its emergence and growth worldwide and its professional practice. The volume sets out a historical survey of the genre and follows with a kaleidoscopic bird's eye view of choral music from all over the world. Chapters vividly portray the emergence and growth of choral music from its Quranic antecedents in West and Central Asia to the baroque churches of Latin America, representing its global diversity. Uniquely, the book includes a pedagogical section where several leading choral musicians write about the voice and the inner workings of a choir and give their professional insights into choral practice. This Companion will appeal to choral scholars, directors and performers alike.

More Americans trace their ancestry to Germany than to any other country. Arguably, German Americans form America's largest ethnic group. Yet they have a remarkably low profile today, reflecting a dramatic, twentieth-century retreat from German-American identity. In this age of multiculturalism, why have German Americans gone into ethnic eclipse--and where have they ended up? *Becoming Old Stock* represents the first in-depth exploration of that question. The book describes how German Philadelphians reinvented themselves in the early twentieth century, especially after World War I brought a nationwide anti-German backlash. Using quantitative methods, oral history, and a cultural analysis of written sources, the book explores how, by the 1920s, many middle-class and Lutheran residents had redefined themselves in "old-stock" terms--as "American" in opposition to southeastern European "new immigrants." It also examines working-class and Catholic Germans, who came to share a common identity with other European

immigrants, but not with newly arrived black Southerners. *Becoming Old Stock* sheds light on the way German Americans used race, American nationalism, and mass culture to fashion new identities in place of ethnic ones. It is also an important contribution to the growing literature on racial identity among European Americans. In tracing the fate of one of America's largest ethnic groups, *Becoming Old Stock* challenges historians to rethink the phenomenon of ethnic assimilation and to explore its complex relationship to American pluralism.

A Guide for Performers Cambridge University Press

"South Africa possesses one of the richest popular music traditions in the world - from marabi to mbaqanga, from boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. If one peruses the books that exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is true of all music-making in this country, though it is most striking in the music of the black communities. Beyond memory: recording the history, moments and memories of South African music is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a DJ at the South African Broadcasting Corporation. This book - astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries"--Publisher's description.

"Twenty-twenty hindsight" means perfect understanding of events only after they have happened. In his book, Mosiuoa Sekese looks back on his life in the old and new South Africa and gives his own perceptive interpretation of the past events. Sekese suffered discrimination and prejudice under the old apartheid government as well as the new, democratic regime. His story is highly personal, but provides the reader with unique insights into the social and educational challenges that South Africa continues to grapple with. "I had a quick read and I find the content heartbreaking but fascinating. Especially as a white South African you are drawing me into a world that I always knew existed, but which few people have the guts and

conviction to paint into words." - Louise Heystek-Emerton: CEO Wordwise/Khuluma Awethu

The South African Handbook on Arts and Culture African Minds

An inspiring story of one man's rise from poverty and oppression to success and fame in the international world of opera ... It is a difficult undertaking for any human to escape the cycle of poverty, but to do so from one of the world's most complex political systems, with a brutal history of segregation and deprivation, is nothing short of a miracle. Yet Musa Ngqungwana's story doesn't end there. Not only did he manage to extricate himself from his impoverished past, but he found his way to the great opera houses of the world, attaining immense success in an affluent art form that bears no resemblance to his upbringing or culture. Musa's life and career are proof that any human can overcome the devastating effects of discrimination and poverty. *Odyssey of an African Opera Singer* chronicles Musa's journey from the townships of South Africa to the world stage. It is a story of hope, showing how humans, no matter their situation, have the opportunity to claim their gifts, develop them and use them to help others in need. A captivating story that will inspire anyone who has ever had a dream ...

In recent decades, world music styles have been making increasing inroads into Western popular music, music theater, choral concerts, and even concert hall performances. *So You Want to Sing World Music* is an essential compendium of these genres and provides technical approaches to singing non-Western styles. Matthew

Hoch gathers a cohort of expert performers and teachers to address singing styles from across the globe, including Tuvan throat singing, Celtic pop and traditional Irish singing, South African choral singing, Brazilian popular music genres, Hindustani classical singing, Native American vocal music, Mexican mariachi, Lithuanian sutartinės, Georgian

polyphony, Egyptian vocal music, Persian āvāz, and Peking opera. Additional chapters offer resources for soloists and choral directors as well as primers on voice science, vocal health, and audio enhancement technology. The So You Want to Sing series is produced in partnership with the National Association of Teachers of Singing. Like all books in the series, So You Want to Sing World
