KLEIN MOHAMMED

Emerging Concepts and Applications BRILL
This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and

supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

"As technology threatens to displace countless jobs and skills, the ability to communicate is becoming more important than ever. This book is full of examples to help you get better at transporting your thoughts and emotions into the minds of

other people.” —Adam Grant, New York Times bestselling author of *Give and Take*, *Originals*, and *Option B* with Sheryl Sandberg How to master the art of persuasion—from the bestselling author of *Talk Like TED*. Ideas don’t sell themselves. As the forces of globalization, automation, and artificial intelligence combine to disrupt every field, having a good idea isn’t good enough. Mastering the ancient art of persuasion is the key to standing out, getting ahead, and achieving greatness in the modern world. Communication is no longer a “soft” skill—it is the human edge that will make you unstoppable, irresistible, and irreplaceable—earning you that perfect rating, that fifth star. In *Five Stars*, Carmine Gallo, bestselling author of *Talk Like TED*, breaks down how to apply Aristotle’s formula of persuasion to inspire contemporary audiences. As the nature of work changes, and technology carries things across the globe in a moment, communication skills become more valuable—not less. Gallo interviews neuroscientists, economists, historians, billionaires, and business leaders of companies like Google, Nike, and Airbnb to

show first-hand how they use their words to captivate your imagination and ignite your dreams. In the knowledge age—the information economy—you are only as valuable as your ideas. *Five Stars* is a book to help you bridge the gap between mediocrity and exceptionality, and gain your competitive edge in the age of automation. In *Five Stars*, you will also learn: -The one skill billionaire Warren Buffett says will raise your value by 50 percent. -Why your job might fall into a category where 75 percent or more of your income relies on your ability to sell your idea. -How Airbnb’s founders follow a classic 3-part formula shared by successful Hollywood movies. -Why you should speak in third-grade language to persuade adult listeners. -The one brain hack Steve Jobs, Leonardo da Vinci, and Picasso used to unlock their best ideas.

Your Shortcut Guide to Mastering Consulting Interviews John Wiley & Sons

New York Times bestselling author Dave Hollis knows what it feels like to realize you’ve been sailing off of someone else’s map. He has taken control of his life and future, and he’s ready to share the lessons he learned along the way with readers who are facing similar struggles. Dave Hollis was recently confronted with the fact that he was living the life someone else wanted for him. After weathering a highly publicized personal crisis amid the backdrop of an international pandemic and navigating the enjoyable but unpredictable waters of being a single father to four kids, he has been forced to become the captain of his own life and is ready to teach others how to do the same. *Built for Courage* will help you: Dive deeper into the stories, values, and beliefs you attach yourself to and decide once and for all if they have credibility or if it’s time to cut bait; Incorporate fundamental habits and routines specific to you and your circumstances that will flood your daily life with consistency, flexibility, simplicity, and integrity; Identify and, if necessary, adjust

your goals to ensure they are clear, don't belong to other people, and are not contingent on immediate results; Accept failure as the richest source of intelligence and help you reframe it as a requirement for your own progress and growth; and Much, much more. Built for Courage gleans wisdom from sources vast and wide, as well as from the life experiences of Dave himself, to get you to the place you're meant to go and become who you are meant to be, regardless of any anchor holding you back.

For more than 15 years, The Academic Job Search Handbook has assisted job seekers in all academic disciplines in their search for faculty positions. The guide includes information on aspects of the search that are common to all levels, with invaluable tips for those seeking their first or second faculty position. This new edition provides updated advice and addresses hot topics in the competitive job market of today, including the challenges faced by dual-career couples, job search issues for pregnant candidates, and advice on how

to deal with gaps in a CV. The chapter on alternatives to academic jobs has been expanded, and sample resumes from individuals seeking nonfaculty positions are included. The book begins with an overview of the hiring process and a timetable for applying for academic positions. It then gives detailed information on application materials, interviewing, negotiating job offers, and starting the new job. Guidance throughout is aimed at all candidates, with frequent reference to the specifics of job searches in scientific and technical fields as well as those in the humanities and social sciences. Advice on seeking postdoctoral opportunities is also included. Perhaps the most significant contribution is the inclusion of sample vitas. The Academic Job Search Handbook describes the organization and content of the vita and includes samples from a variety of fields. In addition to CVs and research statements, new in this edition are a sample interview itinerary, a teaching portfolio, and a sample offer letter. The job search correspondence section has also been updated, and there is current information on Internet search methods

and useful websites.

This book focuses on the role of social media as the next major game-changer. Social media has emerged as the defining

trend in the last decade and continues to restructure communication and interactions between individuals, communities, governments and businesses. Researchers and marketers are still struggling with the profound impact of rapidly evolving social media on viral user-generated content, its ability to shape consumer perceptions, and the constantly changing landscape for developing business cases to proactively engage with stakeholders. The growing opportunities to “hear” about customer priorities and concerns on company managed channels as well as third-party review sites, including social media pages, across the digital space are accompanied by the challenges of responding to these conversations in real-time, which calls for a massive shift in the way marketing functions engage in dialogue with customers. As leading users of social media in emerging markets, Indians are increasingly logging into their Facebook and Twitter accounts, with the country recording the highest growth in social networking. This book begins by discussing the impact of social media on marketing, from brand building,

communications, and advertising to customization and customer engagement. The book approaches the subject matter systematically, identifying broad trends, concepts and frameworks in the first few chapters. It then goes on to address the varied application of social media in marketing for different sectors. Primarily focusing on understanding digital consumers, the book integrates social media with marketing and the outcome. It also presents new, selected cases of successful digital companies in emerging markets never before considered. Researchers and managers alike will find this book to be a handy reference guide to social media in emerging markets.

The Case Interview Workbook contains 60 case questions for management consulting interviews, with complete solutions. Every case is compiled and edited by a team of

ex-consultants from McKinsey & Company, the Boston Consulting Group, and Bain & Company. This book fills the gap left by others by providing you with plenty of high-quality cases to practice on before your interview. Many cases are from actual interviews at the top-tier firms and cannot be found elsewhere. After working through this book, you will be prepared for every type of case question you may encounter: market sizing, estimation, operations, industry analysis, pricing, growth strategy, marketing, investment, M&A, market entry, customer segmentation, profitability, valuation, logic, issue identification, cost analysis, market expansion, and brainteasers, to name a few. These cases will help you prepare for interviews at leading management consulting firms, including McKinsey & Company, The Boston Consulting Group, Bain & Company, Oliver Wyman, Strategy& (formerly Booz & Company), A.T. Kearney, Roland Berger, and L.E.K, as well as for consulting roles at large firms such as Accenture, Deloitte, PwC, EY, and KPMG. Note that is a workbook, designed to complement other preparation books. You will have a hard

time solving these cases without learning

first elsewhere how to do so, e.g. which frameworks to use, how to use them, and

how to structure a solution.
