MCCULLOUGH BENJAMIN

Operative Orthopaedics: The Stanmore Guide CRC Press
Operative Orthopaedics is a definitive and comprehensive guide to elective orthopaedic surgery for trainees preparing for FRCS and surgeons at MRCS level. With the emphasis on techniques employed and the reasoning behind them, this book is both a practical instruction manual and a revision tool. Based on the authoritative 'Stanmore course' run by the Royal National Orthopaedic Hospital Operative Orthopaedics covers all aspects of elective orthopaedic surgery as assessed by the FRCS Higher Specialty exams. Surgery of the upper limb, lower limb and spine is explained from preoperative planning through technique and potential complications. Specialist areas such as tumour surgery, paediatric surgery and limb reconstruction are also included. Each chapter concludes with key references and sample viva voce questions and answers to extend and reinforce learning.

Introduction to Surgical Instruments and Procedures Springer Nature

An indispensable study guide to help surgical trainees prepare and perform for their fellowship exam. Examination Surgery offers invaluable insight into the format and content of the Fellowship Examination in General Surgery. This study guide addresses the most frequently encountered topics from the last 10 years of examinations. It helps surgical trainees organise their studies and optimise their performance in what is reputedly one of the most rigorous postgraduate exams. The general surgery fellowship tests clinical wisdom, judgement, insight and safe practice, and Examination Surgery's preparation material accurately reflects what you will encounter in the exam. Arranged to mirror the exam's individual components, Examination Surgery is divided into the following sections: The written papers Clinical viva voces Surgical anatomy viva voce Operative surgery viva voce Pathophysiology and critical care and clinical reasoning viva voce This Elsevier study guide is aimed at candidates preparing for the Fellowship Examination in General Surgery of the Royal Australasian College of Surgeons. It is, however, also relevant for candidates in the UK, Ireland, Canada, South Africa and Hong Kong, plus all general surgeons, surgical residents and medical students. How to approach each exam Most frequently encountered topics Common questions and scenarios with 'model answers' Fellowship examination format and recommended technique Proven study strategies

Frcs General Surgery Viva Topics 2nd Ed CRC Press
Describes the anatomical knowledge required for the 45 most common general surgical procedures. Throughout, the emphasis is on helping the surgeon prepare for, and successfully and safely complete the operation. The choice of operations covered and the level of detail make the book ideal for higher surgical trainees in General Surgery. More experienced surgeons will also use it as a source of reference.

Viva Practice for the MRCS CRC Press

Up to date and evidence-based answers to a wide range of spinal surgical questions that could be asked in the FRCS (Tr & Orth) Viva exam. Using a clear, case-based structure key points emphasise the core information that will improve the performance of every surgical in training. Sections cover all the key areas of Trauma, Degenerative spinal pathology, Spinal cord injury, Spinal deformity, Primary bone tumours, Metastatic disease, Paediatric spinal surgery, Basic sciences, and other topics. Suitable for use by trainees at all levels in orthopaedic surgery and neurosurgery, both in the UK and internationally, and those with an interest in spinal surgery.

MRCS Picture Questions OUP Oxford

This book includes a foreword by Nicola Maffulli, Professor of Trauma and Orthopaedic Surgery, Keele University School of Medicine, and Consultant Trauma and Orthopaedic Surgeon, North Staffordshire Royal Infirmary and City General Hospital, Staffordshire. The new structure of the Fellowship of the Royal College of Surgeons (FRCS) examination requires candidates to complete two papers in extended matching question (EMQ) and multiple choice question (MCQ) format. This invaluable revision aid contains a 'bank' of over 350 questions in self-test format. Comprehensive answers are detailed at the end of each section. With a focus on high-yield topics, students can choose use the resource in the early stages as an overview of the subjects, then later as an ideal exam revision aid. There's nothing else like it! Specialist registrars preparing for the FRCS (Trauma and Orthopaedics) examination will find this an essential revision aid. It is also useful for Basic Surgical Trainees preparing for the Membership of the Royal College of Surgeons (MRCS) examination.

with Explanatory Answers John Wiley & Sons

A concise and highly visual guide to postgraduate physical examination for the MRCS exam, from an expert panel of surgeons.

Companion Cases for the Intercollegiate Exam in General Surgery Anshan Pub

This new book is targeted at higher trainees in orthopaedic surgery preparing for the second part of the FRCS (Tr & Orth) exam. The exam involves a set of vivas during which a range of topics is discussed, the aim being to demonstrate trauma safety and competence rather than trauma expertise. Examiners may use props such as models, clinical pictures, clinical studies, and x-rays to introduce topics and initiate discussion. This book uses a similar model to allow the candidate to practise key topics for discussion with common presentations and histories, and high quality x-rays. The book lends itself to individual and small group learning as trainees prepare for their examinations.

Postgraduate Orthopaedics CRC Press

Cracking the Intercollegiate General Surgery FRCS Viva

Cambridge University Press

The FRCS Oral and Maxillofacial Surgery (OMFS) exam is split into three parts: written, viva and mock clinical consultations with an examiner and an actor in the role of a patient. These consultations fall into two formats: 'short case', where the examiner poses questions specific to the patient's case, and 'long case' where the candidate must diagnose the patient's presenting problem and suggest an appropriate course of treatment. FRCS (Oral & Maxillofacial Surgery) Part 2: 100 Clinical Cases focuses on the clinical component of the exam and is structured according the FRCS OMFS syllabus. Each chapter starts with cases devoted to examination of the patient, history taking and investigations. Subsequent cases feature 'short case' clinical scenarios commonly encountered in the exam. Where relevant to exam practice, a 'long case' is included at the end of each chapter. The 'short cases' feature mock questions, while the 'long cases' also include an examiner's mark sheet listing the answers and actions candidates must perform to achieve full marks. First book to cater specifically for the clinical component of the FRCS OMFS exam Ideal for practising scenarios with colleagues and taking turns to play role of either candidate or examiner

FRCS (Oral & Maxillofacial Surgery) Part 2 Cambridge University Press

This is the first revision book to be published specifically for

candidates sitting the FRCS(Urol) examination. It presents a selection of questions arising from common clinical scenarios along with detailed model answers. The emphasis is on current concepts and topics asked in the exam. Each chapter has been written by senior urology trainees who have recently passed the examination, in conjunction with experienced consultant urological surgeons. In addition to FRCS(Urol) examination candidates, this book will also be relevant to those sitting the FEBU or MSc urology examination, or to established consultants seeking a useful refresher text in areas outside their subspecialist interest. 'The British Association of Urological Surgeons (BAUS) is a charity whose mission is to promote the highest standard in the practice of Urology. As President of BAUS, it is therefore a great privilege and pleasure to introduce this excellent book.' - from the Foreword by Derek Fawcett 'No Urology trainee should be without this important and valuable contribution to the training of future consultants.' - from the Foreword by Hashim U Ahmed

The Anatomy of General Surgical Operations Radcliffe Publishing Part of the Masterpass series, this highly authoritative guide covers all the required topics, with emphasis on important areas ensuring candidates are thoroughly tested. MCQs in Geriatric Medicine for Postgraduate Examinations is ideal for postgraduate doctors wanting to succeed in elderly medicine biased MCQs such as candidates for the Diploma in Geriatric Medicine and registrars in geriatric medicine reading for their specialty certificates. It is also highly recommended for Part I MRCP candidates requiring a grasp of this rapidly increasing branch of medicine in terms of information, number of patients and cost to the state. The overall proportions of topics are suggested by the Royal College of Physicians, London but I have added more questions proportional to the importance of some topics. When you have cracked all 350, you will have the MCQ examiners on toast. Roger Gabriel, in the Preface.

Postgraduate Orthopaedics Radcliffe Publishing

This book has been designed for undergraduates preparing for the final year MBBS examination in surgery. The book begins with a detailed classification of instruments according to their use, followed by the points for identification. It, then provides an elaborate description of different operative procedures used as well as sterilization methods of instruments. Finally, a separate chapter X-rays Commonly Asked during Examination, has also been added to help students face viva-voce. The question-answer format of the book including the frequently asked questions would greatly help students in preparing for their exams. About the Author: - MM Kapur, Professor (formerly) of Surgery, AIIMS, New Delhi, obtained his MBBS and FRCS degrees from Calcutta University and Royal College of Surgeons, London in 1955 and 1961, respectively. From 1964 to 1986, he imparted teaching and training to undergraduate and postgraduate students at the All India Institute of Medical Sciences, New Delhi. Due to his distinguished service to the speciality of surgery he was conferred Commonwealth Fellowship in 1968-69 and was awarded WHO Visiting Scientist Award in 1978. For a brief period (1989-92), he was Regional Advisor, Medical Research, WHO South East Asia Regional Office, New Delhi.

choice questions, this is a comprehensive revision guide for candidates taking the basic sciences component of the FRCOphth and ICO examinations. It is highl

Passing the Clinical Oxford University Press

What are the indications for necrosectomy? How you perform an EUA for acute peri-anal sepsis? What do you understand by the term Early Goal-Directed Therapy (EGDT)? Remember: this is a consultant's exam, and giving a range of options is not good enough. You must tell the examiner what you as a consultant are going to do. The FRCS is a uniquely challenging prospect; highly detailed, wide-ranging and encompassing both theory and practice. Preparation for this exam can be very difficult, and resources tailored to it are scarce. As the consolidated notes of a recent successful candidate, this book is an essential resource when preparing for the viva. The wide variety of questions require you to define, diagnose or choose between treatment options, while MCQs and SBAs help you to objectively evaluate your progress - a unique supplement to your study plan. Answers provided are comprised of an invaluable combination of detailed written answers and lists that will remind you of key points and help you structure your preparation.

FRCS General Surgery Viva Topics and Revision Notes Tfm Pub Limited
