The Magic of a Name tells the story of the first forty years of Britain's most prestigious manufacturer – Rolls-Royce. Beginning with the historic meeting in 1904 of Henry Royce and C.S. Rolls, and the birth in 1906 of the legendary Silver Ghost, Peter Pugh tells a story of genius, skill and dedication that gave the world cars and aeroengines unrivalled in their excellence. In 1915, 100 years ago, Royce produced the first of many aero engines, the Eagle, which proved itself in battle in the First World War. Twenty-five years later, the totemic Merlin was installed in the Spitfire and built in a race against time to help win the Battle of Britain. With unrivalled access to the company's archives, this is a unique portrait of both an iconic name and of British industry at its best.

Shortlisted for the Financial Times and Goldman Sachs Business Book of the Year Prize 2008 The Snowball is the first and will be the only biography of the world's richest man, Warren Buffett, written with his full cooperation and collaboration. Combining a unique blend of "The Sage of Omaha's" business savvy, life story and philosophy, The Snowball is essential reading for anyone wishing to discover and replicate the secrets of his business and life success. Warren Buffett is arguably the world's greatest investor. Even as a child he was fascinated by the concept of risk and probability, setting up his first business at the age of six. In 1964 he bought struggling Massachusetts textile firm Berkshire Hathaway and grew it to be the 12th largest corporation in the US purely through the exercise of sound investing principles - a feat never equalled in the annals of business. Despite an estimated net worth of around US\$62 billion, Buffett leads an intriguingly frugal life taking home a salary of only £50,000 a year. His only indulgence is a private jet, an extravagance he wryly acknowledges by calling it "The Indefensible". In 2006, he made the largest charitable donation on record, with most of it going to the Bill & Melinda Gates Foundation. The Snowball provides a comprehensive, richly detailed insight one of the world's most extraordinary and much loved public figures.

There are a lot of books out there that show collections of logos. But David Airey's "Logo Design Love" is something different: it's a guide for designers (and clients) who want to understand what this mysterious business is all about. Written in reader-friendly, concise language, with a minimum of designer jargon, Airey gives a surprisingly clear explanation of the process, using a wide assortment of real-life examples to support his points. Anyone involved in creating visual identities, or wanting to learn how to go about it, will find this book invaluable. - Tom Geismar, Chermayeff & Geismar In Logo Design Love, Irish graphic designer David Airey brings the best parts of his wildly popular blog of the same name to the printed page. Just as in the blog, David fills each page of this simple, modern-looking book with gorgeous logos and real world anecdotes that illustrate best practices for designing brand identity systems that last. David not only shares his experiences working with clients, including sketches and final results of his successful designs, but uses the work of many well-known designers to explain why well-crafted brand identity systems are important, how to create iconic logos, and how to best work with clients to achieve success as a designer. Contributors include Gerard Huerta, who designed the logos for Time magazine and Waldenbooks;

Lindon Leader, who created the current FedEx brand identity system as well as the CIGNA logo; and many more. Readers will learn: Why one logo is more effective than another How to create their own iconic designs What sets some designers above the rest Best practices for working with clients 25 practical design tips for creating logos that last

A fascinating account of the only airworthy Hawker Hurricane, "now regarded as the most historic British aircraft to survive in flying condition from WW2" (FLYER). In 1982 when he was traveling in India, Peter Vacher stumbled on the remains of a British plane—a Hurricane Mark I, a veteran of the Battle of Britain. It was in a dreadful state. Could he restore it? Would it fly again? Not until 14 years later did he decide to act and after six years of wrangling he got the icon home. Then the truly difficult process of restoration began—a worldwide search for parts, careful reconstruction, flight testing—until in 2005 it flew again to the delight of thousands of enthusiasts. Along the way Peter reunited three auspicious veterans—Peter Thompson, Bunny Carrant, and Bob Foster—with R4118, men who had flown her during the war. To this day, the aircraft's grace and splendor in flight is enjoyed by crowds across the UK. "The amazing story of how this only surviving Hurricane from the Battle of Britain was discovered and lovingly restored." —The Mail on Sunday

It's hard to imagine a history of British engineering without Rolls-Royce: there would be no Silver Ghost, no Merlin for the Spitfire, no Alcock and Brown. Rolls-Royce is one of the most recognisable brands in the world. But what of the man who designed them? The youngest of five children, Frederick Henry Royce was born into almost Dickensian circumstances: the family business failed by the time he was 4, his father died in a Greenwich poorhouse when he was 9, and he only managed two fragmented years of formal schooling. But he made all of it count. In Sir Henry Royce: Establishing Rolls-Royce, from Motor Cars to Aero Engines, acclaimed aeronautical historian Peter Reese explores the life of an almost forgotten genius, from his humble beginnings to his greatest achievements. Impeccably researched and featuring almost 100 illustrations, this is the remarkable story of British success on a global stage.

"Peter Vacher has revised and updated his classic account of the discovery and restoration of our Hawker Hurricane Mk I-R4118." —Hurricane Heritage Twelve years since the amazing account of Peter Vacher's discovery in India was originally published, Grub Street is thrilled to bring readers the updated story of Hurricane R4118. Since the restoration of this magnificent aircraft to flight in 2004, Peter Vacher continued to research its history. In Hurricane R4118 Revisited, more stories of R4118's origins are told, including the extraordinary tale of how this aircraft shot down a friendly Whitley bomber before it was assigned to a RAF squadron. Focus is also given to the role of 605 Squadron's ground crew and the aircraft during the Battle of Britain. Continuing into the present day, Vacher highlights the challenges of maintaining and flying a historic warbird, while Keith Dennison, a warbird pilot, provides expert commentary on exactly what it is like to fly a Hurricane. The book concludes with the sale of R4118 to an enthusiastic Englishman and the decision taken to keep the aircraft at the Shuttleworth Collection. With brand new photography and sources, including wartime letters from veteran pilot Bunny Carrant, this book is essential reading for all Hurricane enthusiasts. "Photos and firsthand accounts trace the ongoing restoration and display of a legendary aircraft." —FineScale Modeler

Although libraries and museums for many centuries have taken the lead, under one rational or another, in recovering, storing, and displaying various kinds of culture of their periods, lately, as the gap between elite and popular culture has apparently widened, these repositories of artifacts of the present for the future have tended to drift more and more to what many people call the aesthetically pleasing elements of our culture. The essays in this book investigate the reasons for present-day neglect of popular culture materials and chart the various routes by which conscientious and insightful librarians and museum directors can correct this disastrous oversight.
