The modern game of football is filled with plays and formations with names like the Counter Trey, the Wildcat, the Zone Blitz and the Cover Two. They have become part of the sport's vernacular, and yet for many fans they remain just names, often confusing ones. To rectify that, Tim Layden has drilled deep into the core of the game to reveal not only how these chalkboard X's and O's really work on the field, but also where they came from and who dreamed them up. These playbook schemes, many of them illuminated by diagrams, bear the insignia of some of the game's great innovators, men like Vince Lombardi, Don Coryell, Tom Osborne, Bill Walsh, Tony Dungy and Buddy Ryan. But football has also been radically altered by the ingenious work of men with more obscure names, like Tiger Ellison, Emory Bellard and Mouse Davis. In *Blood, Sweat and Chalk*, Layden takes readers into the meeting rooms-and in some cases the living rooms-where the game's most significant ideas were hatched. He goes to the coaches and to the players who inspired them, and lets them tell their stories. In candid conversations with some of football's most intriguing characters, Layden provides a fascinating guide to the game, helping fans to better see the subtleties of America's favorite sport.

During the 1920s—the Golden Age of sports—sports writers gained their own recognition while covering such athletes as Babe Ruth, Bobby Jones, Jack Dempsey, and Red Grange. The top journalists of the era were the primary means by which fans learned about their favorite teams and athletes, and their

popularity and importance in the sports world continued for decades. *Legendary Sports Writers of the Golden Age*: Grantland Rice, Red Smith, Shirley Povich, and W. C. Heinz details the lives and careers of four sports-writing greats and the iconic athletes and events they covered. Although these writers established themselves during the 1920s, their careers extended well into the decades that followed. They reported on Jesse Owens, Joe Louis, Sandy Koufax, Arnold Palmer, and many other stars from the 1920s and beyond. Lee Congdon examines not only the lives and careers of Rice, Smith, Povich, and Heinz, but the distinctive writing style that each of them developed. Taken together, these four writers lifted sports reporting to heights that it is unlikely to reach again. This book brings to life the greatest era in sports history, as seen through the eyes of four legendary sports writers. Sports fans, historians, and those interested in sports journalism will all find this a fascinating and informative look at a time when the sports world was at its peak.

A hardboiled novel about life in the American underground, from the pool halls of Portland to the cells of San Quentin. Simply one of the finest books ever written about being down on your luck. Don Carpenter's *Hard Rain Falling* is a tough-as-nails account of being down and out, but never down for good—a Dostoyevskian tale of crime, punishment, and the pursuit of an ever-elusive redemption. The novel follows the adventures of Jack Levitt, an orphaned teenager living off his wits in the fleabag hotels and seedy pool halls of Portland, Oregon. Jack befriends Billy Lancing, a young black runaway and pool hustler extraordinaire. A heist gone wrong gets Jack sent to reform school, from which he emerges embittered by abuse and solitary confinement. In the meantime Billy has joined the middle class—married, fathered a

son, acquired a business and a mistress. But neither Jack nor Billy can escape their troubled pasts, and they will meet again in San Quentin before their strange double drama comes to a violent and revelatory end.

Fat City is a vivid novel of allegiance and defeat, of the potent promise of the good life and the desperation and drink that waylay those whom it eludes. Stockton, California is the setting: the Lido Gym, the Hotel Coma, Main Street lunchrooms and dingy bars, days like long twilights in houses obscured by untrimmed shrubs and black walnut trees. When two men meet in the ring -- the retired boxer Billy Tully and the newcomer Ernie Munger - their brief bout sets into motion their hidden fates, initiating young Ernie into the company of men and luring Tully back into training. In a dispassionate and composed voice, Gardner narrates their swings of fortune, and the plodding optimism of their manager Ruben Luna, as he watches the most promising boys one by one succumb to some undefined weakness; still, "There was always someone who wanted to fight."

"Concise, and highly entertaining."- Louis-Vincent Gave, CEO Gavekal Research "The Epic Split is packed full of great insights and anecdotes."- Rob Carnell, Chief Economist, Asia-Pacific, ING Bank "Essential reading."- Risto E J Penttilä, Secretary General, European Business Leaders' Convention This book is about the greatest break-up the world has ever seen. The conflict between the world's two biggest economies is far from being just about trade. It's a fierce and escalating battle between two ideologies. If the past decades were characterized by globalization, the next may well be all about decoupling: the disintegration of the relationship between the US and China. Companies are leaving China, no question. And consumers around the world say they prefer products not made there. It's clear that 'Made in China' is going out of fashion. However, this is not a book about the world going up in flames. It's about change and opportunities. For China, the conflict has given new urgency to the need to modernize its economy and become more self-reliant in technology. For international companies and for governments around the world, it has been a wake-up call to cut dependency on Chinese supply chains, against a backdrop of rising consumer skepticism toward China. The world's biggest maker of mobile phones, Samsung Electronics, recently closed down its last factory in China. More will follow. "Nylander does a superb job of unpacking the state of decoupling between US and China"- Paul Triolo, head of geotechnology at Eurasia Group "It was a pure pleasure reading his book. Highly relevant - and elegant."- Ulf Ohrling, founder and director Ohrling Advisory Ltd

Legendary Sports Writers of the Golden Age New York Review of Books

Before W. C. Heinz embarked on his illustrious career as one of the premier sports writers of the past fifty years, he served as a war correspondent for the New York Sun. Now for the first time ever, Heinz's finest work on World War II, written both during and after the war, is collected in one volume. From his first-person account aboard the U.S.S. Nevada during D-Day in 1944 to his legendary dispatches from the towns and battlefields of the European front, Heinz vividly conveys the courage, humor, and humanity of men under fire. Whether describing a battle scene or a soldier, Heinz brings home the war like few others ever have. In the second half of the book, he and his fourteen-year-old son, Bud, revisit the beaches of Normandy with D-Day veteran Major General Earl Rudder, who recounts his experiences there; in another story he describes, in his patented you-are-there style, the morning three German spies were executed; and in the concluding piece, Heinz revisits many of the towns he journeyed through as the American army fought its way across Europe twenty years before. *When We Were One* is a superb collection of writing on World War II that ranks with the finest ever assembled on any war.

An "exceptional" account of underdog boxer Tony Galento's surprising 1939 victory against renowned heavyweight champion Joe Louis (The Boston Globe) Beetle-browed, nearly bald, a head that rode his collarbones like a bowling ball returning on rails, his

waist size more than half his five-foot-eight height, Two Ton Tony Galento resembled “a taxi driving away with its top down.” By all measures he stood no chance when he stepped into the ring against the Brown Bomber, Joe Louis, the finest heavyweight of his generation. But in Yankee Stadium on a June night in 1939, he entered the record books as one of the few men to put the great Louis down. For two splendid seconds he stood on the mat as the Joe Louis lay before him, champ of the world, the toughest man alive—the mythical hero of a nation little more than a year away from war. “I’ll moida da bum,” he had predicted. And though Louis was no bum, Galento was almost as good as his word. Joe Monninger’s spellbinding portrait of a man, a moment, and an era reminds us that sometimes it is through effort—and not the end result—that people most enduringly define themselves.

Bill Littlefield (NPR’s *Only a Game*) presents the second installment in the *Library of America* series devoted to classic American sportswriters, a definitive collector’s edition of the pathbreaking writer who invented the long-form sports story. Like his friend and admirer Red Smith, W. C. Heinz (1915–2008) was one of the most distinctive and influential sportswriters of the last century. Though he began his career as a newspaper reporter, Heinz soon moved beyond the confines of the daily column, turning freelance and becoming the first sportswriter to make his living writing for magazines. In doing so he effectively invented the long-form sports story, perfecting a style that paved the way for the New Journalism of the 1960s. His profiles of the top athletes of his day still feel remarkably current, written with a freshness of perception, a gift for characterization, and a finely tuned ear for dialogue. Jimmy Breslin named Heinz’s “Brownsville Bum”—a brief life of Al “Bummy” Davis, Brooklyn street tough and onetime welterweight champion of the world—“the greatest magazine sports story I’ve ever read, bar none.” His spare and powerful 1949 column, “Death of a Race Horse,” has been called a literary classic, a work of clarity and precision comparable to Hemingway at his best. Now, for this essential writer’s centennial, Bill Littlefield, the host of NPR’s *Only A Game*, presents the essential Heinz: thirty-eight columns, profiles, and memoirs from the author’s personal archive, including eighteen pieces never collected during his lifetime. Though Heinz’s great passion was boxing—the golden era of Rocky Graziano, Floyd Patterson, and Sugar Ray Robinson—his interests extended to the wide world of sports, with indelible profiles of baseball players (Babe Ruth, Joe DiMaggio), jockeys (George Woolf, Eddie Arcaro), hockey players, football coaches, scouts and trainers and rodeo riders.

Originally published in 1981 and long out of print, this dual autobiography covers five unforgettable decades of the New York sporting life from 1915 to 1965. Told initially from the point of view of Frank Graham, premier sportswriter for *The New York Sun*, *A Farewell to Heroes* also includes the chronicles of Frank, Jr., who picks up the narrative as he becomes a sports journalist in his own right. Frank Graham, Sr., was a self-taught writer known for his uncanny ability to capture the high drama of a game-winning play or the color of a fight mob’s conversation in spare, straightforward prose. As a reporter, he covered the rough-and-tumble Giants of John McGraw’s day and continued through boxing’s greatest era, spanning the reigns of Jack Dempsey and Joe Louis. As the younger Frank tells more of the story, we watch Lou Gehrig take Babe Ruth’s place as the Yankees’ star and then trace his glorious career to its tragic conclusion. We see firsthand the legendary Branch Rickey and Jackie Robinson and boxing’s brief but golden age on television in the 1950s. Aided by sixteen photographs and preserving the most masterful of his father’s writing while adding to it the best of his own, Frank Graham, Jr., has given the sports fan *A Farewell to Heroes*, perhaps the ultimate sports reminiscence of a time when the romance of sport gave life a golden hue, when heroes still roamed the earth. -In what he calls this ‘kind of dual autobiography,’ he is his father’s

son, having learned to look and listen as his father did and still go his own way, - says W. C. Heinz, longtime sportswriter for The New York Sun, in his new foreword to this paperback edition.

As Aristotle stated, scientific explanation is based on deductive argument-yet, Wesley C. Salmon points out, not all deductive arguments are qualified explanations. The validity of the explanation must itself be examined. Four Decades of Scientific

Explanation provides a comprehensive account of the developments in scientific explanation that transpired in the last four decades of the twentieth century. It continues to stand as the most comprehensive treatment of the writings on the subject during these years. Building on the historic 1948 essay by Carl G. Hempel and Paul Oppenheim, "Studies in the Logic of Explanation," which introduced the deductive-nomological (D-N) model on which most work on scientific explanation was based for the following four decades, Salmon goes beyond this model's

inherent basis of describing empirical knowledge to tells us "not only what, but also why." Salmon examines the predominant models in chronological order and describes their development, refinement, and criticism or rejection. Four Decades of Scientific Explanation underscores the need for a consensus of approach and ongoing evaluations of methodology in scientific explanation, with the goal of providing a better understanding of natural phenomena.
