The theme of the
conference this year was

Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term 'critical' has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become 'naturalized' and are not called into question. Over 200 presentations were

delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.

Counter-attack, and Other Poems La villa ercolanese dei Pisoni Rivista popolare di politica, lettere e scienze sociali Oxford Guide to English Grammar The Oxford Guide to English Grammar is a systematic account of grammatical forms and

the way they are used in modern standard English. It is designed for learners at intermediate and advanced levels and for teachers, and is equally suitable for quick reference to details or for the more leisurely study of grammatical topics. The emphasis is on meaning in the choice of grammatical pattern, and on the use of patterns in texts and in conversations. Critical CALL - Proceedings of the 2015 EUROCALL Conference, Padova, Italy Youth participation is not

an end in itself, but a means of achieving positive changes in young people's lives and of building better democratic societies. Participation is a fundamental human right recognised, among others, in the Universal Declaration of Human Rights and the Convention on the Rights of the Child. Participation is also a core principle of human rights and is a condition for effective democratic citizenship for all people. The aim of the Council of Europe's youth policy is to provide young people with

equal opportunities and experience which enable them to develop the knowledge, skills and competencies to play a full part in all aspects of society. Youth participation is at the core of youth policy in the Council of Europe, which includes co-management as a form of sharing power with youth representatives. Youth participation is promoted across the various sectors of the Council of Europe. The revised European Charter on the Participation of Young

People in Local and Regional Life, adopted in May 2003 by the Congress of Local and Regional Authorities of the Council of Europe, is a standard-setting instrument for youth participation. It supports young people, youth workers, youth organisations and local authorities in promoting and enhancing meaningful youth participation at local and regional level across Europe. The manual "Have your say!" was produced to support local

and regional authorities, youth organisations and young people who want to give young people a real say for a meaningful democratic youth participation. According to the Charter, participation is about having the right, the means, the space and the opportunity and, where necessary, the support to participate in and influence decisions and engage in actions and activities so as to contribute to building of a better society. The manual "Have your say!" is an educational and

practical tool to support all those committed to making that right a reality for more young people in the Council of Europe member states.

A Winter Walk Henry David Thoreau New England transcendentalist Henry David Thoreau's 1843 essay "A Winter Walk" is a loving celebration of winter and

walking. Thoreau vividly renders the winter season, writing of its sparkling beauty, its purity, and its stillness, and perfectly describing the warmth, coziness, and cheer to be found back at the home hearth. This short work is part of Applewood's "American Roots," series, tactile mementos of American passions by some of America's most famous writers. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the

books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title

has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

This book presents a semiotic study of the re-elaboration of Christian narratives and values in a

corpus of Italian novels published after the Second Vatican Council (1960s). It tackles the complex set of ideas expressed by Italian writers about the biblical narration of human origins and traditional religious language and ritual, the perceived clash between the immanent and transcendent nature and role of the Church, and the problematic notion of sanctity emerging from contemporary narrative. This book, based on

authoritative sources and reports, links environmental communication to different fields of competence: environment, sustainability, journalism, mass media, architecture, design, art, green and circular economy, public administration, big event management and legal language. The manual offers a new, scientifically based perspective, and adopts a theoretical-practical approach, providing readers with qualified best practices,

case studies and 22 exclusive interviews with professionals. A fluent style of writing leads the readers through specific details, enriching their knowledge without being boring. As such it is an excellent preparatory and interdisciplinary academic tool intended for university students, scholars, professionals, and anyone who would like to know more on the matter.

"Anyone who loves to read and wants our young people to develop a similar passion will savor" *Better than Life* "- an enchanting, beautifully

written, and wise book."-- Regie Routman An essential guide to helping children discover the pleasures of reading! In *"Better than Life,"* Daniel Pennac shares the secrets that all book lovers treasure. Delving into his experiences as a parent, a writer and a teacher, he asks, how does the love of reading begin? How is it lost? And how can it be regained? This remarkable book explores simple ways to create a life-long devotion to reading: how reading aloud can ensure that a

love of books begins why it is important that children develop a private relationship with books what "The Reader's Bill of Rights" can do to guarantee children value reading This book reads like a novel with gripping anecdotes from literature and fresh insights into creating and nurturing enthusiastic readers. *Urban Climates* is the first full synthesis of modern scientific and applied research on urban climates. The book begins with an outline of what constitutes an urban

ecosystem. It develops a comprehensive terminology for the subject using scale and surface classification as key constructs. It explains the physical principles governing the creation of distinct urban climates, such as airflow around buildings, the heat island, precipitation modification

and air pollution, and it then illustrates how this knowledge can be applied to moderate the undesirable consequences of urban development and help create more sustainable and resilient cities. With urban climate science now a fully-fledged field, this timely book fulfills the need to

bring together the disparate parts of climate research on cities into a coherent framework. It is an ideal resource for students and researchers in fields such as climatology, urban hydrology, air quality, environmental engineering and urban design.
