Predictive Astrology Lsa/Flare Aspects are the mathematical relationships between planets in an individual's astrological chart. They are key factors in the study of astrology, for it is the interpretation of the relationship of one planet to another that explains human behavior. If we think of each planet as representing a quality of energy or a voice within, then two planets relating to each other would describe a conversation; all ten considered together could be likened to a committee meeting. The relationships of all those planets to each other characterizes the effectiveness of that

group meeting or the quality of dialogue going on within us. Some people have simple and harmonious inner dialogues, while other people have a riot going on inside. *Astrological Aspects* allows readers to make sense of the riot, and through examples of aspects in the charts of well-known people, shows us how different individuals manage, or mismanage, both conflicting and complementary energies-and by extension, how we can do the same. *The Art of Chart Interpretation* Motilal Banarsidass Publishe Bruno & Louise Huber introduce their holistic approach to the birth chart, where the pattern of the aspects reveals the key to understanding hidden, often unconscious, motivation. This second edition has full colour illustrations.

**The Moon Sign Guide** Simon and Schuster

What are astrological aspects and how do they show themselves in a horoscope? How do they relate to the zodiac as a whole and how important are they ? Most importantly, how can they best be put to use in understanding our individual needs and relationships? Sue Tompkins, former Director of Schools for the prestigious Faculty of Astrological Studies, explains the significance and practical use of astrological aspects, which go much deeper into revealing the layers of a person's character than do most summaries offered by basic descriptions of star signs. Included is a section offering interpretations for every planetary combination. Also featured are examples drawn from the lives of many

well-known people, along with charts and diagrams. Not simply another book on astrology, this is informative and useful guide will appeal equally to the experienced astrologer and to the beginner who wishes to know more.
