When his mother died, Malcolm, at six years old, became one of the "lost" children, those forgotten or abandoned by their families. He grew up mirroring many of the mannerisms of the other children, while knowing he was different from them. Malcolm's story is one of immeasurable sadness, when considering the tragedy and abuse of his wasted earlier life, and yet, with an admirable strength, courage and innate resilience, he ultimately rose above it all, and was able to "free the regular boy within" as he had always wanted. In Tarr's moving story of one boy's journey through Seacliff's version of New Zealand insane asylums, with all its tragi-comic consequences, many unasked questions about why large psychiatric institutions have now been closed are answered. This gripping gothic tale, told and retold then assembled into an integrated and compelling story is a must-read for those touched by institutionalization. -- Book cover.

While humanists have pondered the subject of love to the point of obsessiveness, philosophers have steadfastly ignored it. One might wonder whether the discipline of philosophy even recognizes love. The word philosophy means “love of wisdom,” but the absence of love from philosophical discourse is curiously glaring. So where did the love go? In The Erotic Phenomenon, Jean-Luc Marion asks this fundamental question of philosophy, while reviving inquiry into the concept of love itself. Marion begins his profound and personal book with a critique of Descartes' equation of the ego’s ability to doubt with the certainty that one exists—“I think, therefore I am”—arguing that this is worse than vain. We encounter being, he says, when we first experience love: I am loved, therefore I am; and this love is the reason I care whether I exist or not. This philosophical base allows Marion to probe several manifestations of love and its variations, including carnal excitement, self-hate, lying and perversion, fidelity, the generation of children, and the love of God. Throughout, Marion stresses that all erotic phenomena, including sentimentality, pornography, and even boasts about one’s sexual conquests, stem not from the ego as popularly understood but instead from love. A thoroughly enlightening and captivating philosophical investigation of a strangely neglected subject, The Erotic Phenomenon is certain to initiate feverish new dialogue about the philosophical meanings of that most desirable and mysterious of all concepts—love.

Haroro J. Ingram journeys through over a century of history, from the Islamist modernists of the late-1800s into the 21st century, in the first full length examination of the charismatic leadership phenomenon in Islamist radicalism and militancy. Exhaustively researched and founded upon a suite of innovative multidisciplinary paradigms, this book features case studies of Hassan al-Banna, Sayyid Qutb, Abdullah Azzam, Osama Bin Laden and Anwar al-Awlaki. At a micro-level, Ingram

argues that charismatic leaders act as vehicles for the evolution of modern Islamist radicalism and militancy. At a macro-level, he argues that the transformative charisma phenomenon in Islamist radicalism and militancy produces complex chains of charismatic leaders as individual figures rise by leveraging, to varying degrees, the charismatic capital of preceding charismatic leaders. Within these case studies, Ingram offers new approaches to understanding the nuances of these complex phenomena; from his ideal-types of charismatic leadership in Islamist militancy (spiritual guides, charismatic leaders and neo-charismatic leaders) to his framing of al-Qaeda as a 'charismatic adhococracy'. The result is an authoritative analysis of a phenomenon largely ignored by scholars of both charismatic leadership and Islamism. Ultimately, this ground-breaking investigation offers important insights into the complex nuances that drive the rise and evolution of not only Islamist militancy but radical and militant groups more broadly.

Lifelines and Risks David De Angelis

Have you ever had your car keys or television remote control inexplicably vanish from under your nose, only to reappear months later in another part of the house for no evident reason? Most would dismiss it as absent-mindedness, with perhaps a joking remark about paranormal activity. Yet remarkable circumstances surrounding many such accounts suggest that the mysterious disappearance of objects could be more than "just one of those things." Examining a large selection of fascinating narratives, this book reviews the "disappearing object phenomenon" (DOP) from a scientific standpoint. Both skeptical and supportive perspectives on DOP are considered, leading to the conclusion that disappearing, appearing and reappearing objects are indicators of a controversial take on the nature of reality.

Selected Writings University of Chicago Press

The book aims to describe the history of Chan (Japanese Zen) School thought from the standpoint

of social history. Chan, a school of East Asian Buddhism, was influential on all levels of societies in the region because of its intellectual and aesthetic appeal. In China, Chan infiltrated all levels of society, mainly because it engaged with society and formed the mainstream of Buddhism from the tenth or eleventh centuries through to the twentieth century. This book, taking a critical stance, examines the entire history of Chan thought and practice from the viewpoint of a modern Chinese scholar, not a practitioner, but an intellectual historian who places ideological developments in social contexts. The author suggests that core elements of Chan have their origins in Daoist philosophers, especially Zhuangzi, and not in Indian Buddhist concepts. Covering the period from the sixth century into the twentieth century, it deals with Chan interactions with neo-Confucianism, Quanzhen Daoism, and Gongyang new text philology, as well as with literature and scholarship, its fusion with Pure Land Buddhism, and its syncretic tendencies. Chan's exchanges with emperors from the Song, Yuan, Ming, and Qing Dynasty, as well as the motives of some loyalists of the Ming Dynasty for joining Chan after the fall of the Ming, are described. The book concludes with an examination of the views of Chan of Hu Shi, D.T. Suzuki, and the scholar-monk Yinshun.

Everyday Islam in Post-Soviet Central Asia Springer Science & Business Media

Filled with unforgettable stories of emperors, generals, and religious patriarchs, as well as fascinating glimpses into the life of the ordinary citizen, *Lost to the West* reveals how much we owe to the Byzantine Empire that was the equal of any in its achievements, appetites, and enduring legacy. For more than a millennium, Byzantium reigned as the glittering seat of Christian civilization. When Europe fell into the Dark Ages, Byzantium held fast against Muslim expansion, keeping Christianity alive. Streams of wealth flowed into Constantinople, making possible unprecedented wonders of art and architecture. And the emperors who ruled Byzantium enacted a saga of political intrigue and conquest as astonishing as anything in recorded history. *Lost to the West* is replete with stories of assassination, mass mutilation and execution, sexual scheming, ruthless grasping for power, and clashing armies that soaked battlefields with the blood of slain warriors numbering in the tens of thousands.

Providing a wealth of empirical research on the everyday practise of Islam in post-Soviet Central Asia, this book gives a detailed account of how Islam is understood and practised among ordinary Muslims in the region, focusing in particular on Uzbekistan. It shows how individuals negotiate understandings of Islam as an important marker for identity, grounding for morality and as a tool for everyday problem-solving in the economically harsh, socially insecure and politically tense atmosphere of present-day Uzbekistan. Presenting a detailed case-study of the city of Bukhara that focuses upon the local forms of Sufism and saint veneration, the book shows how Islam facilitates the pursuit of more modest goals of agency and belonging, as opposed to the utopian illusions of fundamentalist Muslim doctrines.
